My talking avatar free

I only played with it for about an hour, but so far, I love it. I haven't read any instructions about its use, I'm figuring out how to use it by trial and error. it's quite user friendly. I've used several similar apps where I can create avatars that bear a striking resemblance to me, but this is the first animation I've ever tried. The app does provide quite a lot of features to choose from when creating one's avatar, but there isn't enough to allow such a more convincing user. I had a great time with it, and it made me really lol. Although I haven't used it other than creating my avatar & make him speak, I recommend it! Open the Mac App Store to buy and download apps. Jan 8, 2019 Version 1.0.7 My Talking Avatar now fully supports iOS 12. Fixed user interface bugs on older devices. Improved performance and responsiveness. Fixed an audio bug. So far, everything is working well, and I had a great time sending it to friends. They love it, too. One of my complaints is in the selection of hair. I have long hair, but the longest choice they give is almost under the shoulders. Give me my long hair, developer! (￼￼) So I've been looking for an app that lets me create characters. I especially wanted to create my original character, Haden Blazing. Tip: GET THIS GAME. It's amazing. I love how it gives you the color part for every thing. There is no suggestion of what needs to be fixed, although it would be better if you added glasses and longer hair!! Thank! Peace out ￼ ￼￼￼￼￼￼￼￼￼ ￼ keep up the good work!! Edit: ps, it would also be great if you could add a dress that you can adjust the length and all that. Thanks again!! so why do boys have such 10-20 types of hair and clothes when girls have 5-11 types of hair and clothes. So please add new/cool hair and clothes / fun / cool. And I want to see Harley Quinn's hair and also braids. Please update. But I love using this app. I gave you 4 stars.)
