Finger lakes trail thru hike

And the conditions are improved when volunteers are available. FLT is a primitive sidewalk. If you're looking for a smooth, easy walk in the park so you can prefer a park for your walk. On the other hand, if you get yourself away from challenging and engineered experiences, the finger lakes come to the trail. Still, we want the condition of the Finger Lakes Trail to be the best. Every section of the trail is maintained by stewards and mark adopters who are members of FLTC and affiliate clubs and organizations. These guys volunteer their time because they care about the Finger Lakes Trail. They also care about their experience on the trail. They go on their stretch of trail several times every year to look for problems: scar erosion, litter, vegetation violations on the trail, fallen trees and branches, blazes and signs that need to be replaced or refreshed, and the infrastructure that needs to be repaired. In short, they look for things that will interfere with your jungle hiking experience. Trail volunteers also interact with our private landowners who have agreed to share a portion of their property with FLT hikers. Our volunteers are the first to know when land ownership can change, or when the landowner has had a problem on his stretch of the trail. Whether you're a new or experienced hiker, if you find any problems on the trail, let us know! Visit the Trail Condition Reporting page for more information. Remember, some sections of the trail are off during the hunting season which includes the spring and fall turkey season, and the big-game season. Closure trails are listed in red in the condition notice. Dates are listed on the Hunting Season program. And, when you're ready, join us as a volunteer to help finger lakes live the trail one of the best hiking trails in the world. The world.
