Angela zawada was going to school in Edmonton on a volleyball scholarship to the University of Alberta when she first discovered yoga. It was difficult, but I found that it was very easy on my joints, which was important for my volleyball career, says Angela. When she graduated from university, the aspiring athlete, who was originally from Ontario, began to explore her new passion even further. After university, I saw a lot of studios that were changing from Bikram yoga to moksha yoga, and I fell in love with the practice, she says. While visiting her home in Ontario, she tried moksha yoga and was recruited, so she went to Thailand to study and set up Moksha Yoga Edmonton shortly after she returned. Moksha yoga is a specific type of yoga that is always performed in a warm environment. But, according to Angela, the moksha is about more than the temperature in the room. Moksha is based on seven pillars. Education, accessibility, community engagement and being green are all part of it, says Angela. Moksha should be with you in your life, on and off the mat.
