Ghostbusters vr trophy guide

You've all heard this satisfying sound when a Trophy appears in the corner of your screen. There is a sense of success when locked up after hours following this ultra rare Platinum trophy. The trophies were first introduced on PlayStation 3 and became an integral part of the PlayStation gaming experience. Today, we are excited to announce that we have brought some improvements to the Cup system. The first thing you will notice in the new Cup Levels is a big change at Cup level. We are increasing the current Cup level range from 1-100 to 1-999, after which your Cup level will be automatically upgraded to a new level in this new range based on the Cups you have won so far. For example, if your current Cup level is 12, your new level jumps to the low 200s. The exact level depends on the number and grades of trophies you win. There will be no changes to The Cups Won or Cup information, such as unlocking requirements. New Level Calculation Structure We have implemented a new Cup level calculation system that is more optimized and rewarding. Players will progress faster through early levels and levels will increase more consistently. Platinum trophies will put more value on your level progress, making them even more valuable. New Cup Level Icons With an extended level range, we update the cup level icon and playstation app on PlayStation 5 at a later date. At the moment the Cup icon is only a single gold star, but we add several derivatives: Bronze: levels 1-299Silver: levels 300 - 599Gold: levels 600 - 998Platin: level 999 Icons will also be a subtle distinction to suggest how close it is to the next level visually. Finally, just for clarity, the trophies you've won on previous PlayStation systems will come with you to PlayStation 5, just like in previous generation transitions. New Cup levels will be reflected in all locations where Cup levels are shown, including past systems, PS App and My PlayStation. All these updates will be applied automatically on the system side, starting later tonight (North America) /tomorrow (Europe). We are determined to provide an even better experience for our fans as we move on to the next generation of games. We look forward to everyone starting to collect trophies in all the incredible games that will be released on PS4 and PS5!
