Click the button to download the teal. Vowel Team Phonics Worksheets These worksheets really pack punch in helping students read words using parts that know (a.k.a. reading by analogy). This is a lifelong skill we use as readers. So we want to encourage him, even starting with little bits and pieces, like vowel teams. The vowel teams included in this free color chunk pack are ai, ay, ee, ea, igh trigraph, oa, ow, oo and ow. All of these sites focus only on the long sounds of the vowel team. In the upper-right corner of each page, you'll find that vowel students should focus on the keyword and image. Students paint a piece on each page, and then use that piece to help them read every word. It's so simple! Looking for more resources team vowels? Vowel Team Posters Vowel Team Read & Draw Pages Write vowel team Find all our color pages chunk phonics! Ryder was in first grade. He still couldn't read long vowels. His peers outnumbered him. They read readers like Frog and Frog while he was stuck in the books of phonics in kindergarten. Although he brought home long vowel worksheets, the long vowel patterns simply didn't stick. He did oa ow worksheets one week, and the next he couldn't read shine, float or soap. What's goin' on? His parents were wondering. They thought he might have a lack of memory. Interleaving is mixed practiced: weaving old phonetic sounds into new lessonsKids who struggle with reading need research-based instruction. The science is clear: research-based instruction involves intertwining. What is interleaving? In short, interleaving allows children to practice old material while learning new concepts. This ensures that students do not guess, as they would if they finished oa ow worksheets with all the long about sound: toast, flow, flocks, order, mow, sow... Etc. Of course a child can say long about... all the words say long about! Interleaving encourages learning. This allows children to overcome obstacles that seem insurmountable. In oa ow worksheets that include only oa ow words, the child simply remembers that long about in the middle. This does not facilitate the learning that lasts. To actually paste phonetic sounds, use interleaving in your lessons. For example, children usually learn oa ow after learning some other long vowels. So weave those other long vowel patterns your lessons. Change your list of 1) shine, flow, order, float, mow to look more like 2) fund, shine, ridge, gail, flocks... Etc. In this second your student can't guess.oa ow worksheets with interleavingClick link below for a free oa ow worksheet with interleaving:oa/ow Above link will allow you to print this:You can print this oa ow worksheet by clicking on the link. Your student can practice a variety of phonic sounds. It's called interleaving or mixed practice.
