Search results are sorted by a combination of factors to give you a set of options in response to your search criteria. These factors are similar to the ones you can use to determine which company to select from a local directory of yellow pages, including proximity to where you're looking, experience in the specific services or products you need, and complete business information to help evaluate a company's suitability for you. Favorite listings, or those with featured website buttons, tell YP advertisers to directly provide information about their businesses to help consumers make more informed purchasing decisions. YP advertisers receive a higher location in the default order of search results and may appear in sponsored lists at the top, side, or bottom of the search results page.
