I bought this for my husband for Christmas! He really likes it! He is very excited to have his own farmer to get a beer from a local brewery. We love hydro flasks and their ability to keep our drinks cool for a long time. Rated 5 out of 5 by Skip97304 from Love it! Bought it about a month ago and it was amazing. Keep something cool for a day! Rated 5 out of 5 by Mantap Eddie from Great Product!! How could you not like this flask!!! This is the best. Big enough to store a lot of your favorite drinks. Standing up for a hot or cold drink doesn't matter. It also sweats resistant to large assets so it doesn't sweat on your hands. Love!!! Rated 5 out of 5 by LTB1 from Great Quality The 64 oz Growler Flask is definitely made of great quality. It's big enough for a long family trip. Keep the drink warm or cold for hours. Easy to carry handle. Sleek look. Very pleased with the performance of my Hydro Flask Rated 5 out of 5 by Poltu from A True Monster Got this thought it would be a great big water bottle to bring an unlimited supply to my daily hydration – I was wrong, it was a total tank. Could haul the whole blow of ice to serve at the party in this case and still get 10 people wasted. A big fan of his, and trust hydroflask more than any brand in space. Rated 5 out of 5 by Asyc27 from Best growler! I have had many insulated stainless steel bottles of all kinds of brands but Hydro Flask is easily the best and not even close by. This will make the liquid cool and ice cubes freeze in it for days. Rated 5 out of 5 by MissMary118 from Seriously Amazing Growler this is serious the kind of quality you can expect from Hydro Flask and it didn't disappoint! It is heavy duty, super sturdy, keeps the drink cool for a long time, and is easy to wash. Easy to pour. Easy to transport. Keywords here - easy! Very impressed with this. Rated 5 out of 5 by Taus from Great Works! This hydro flask is amazing!! It's so great it's really my last all day. It really keeps things warm too. I would recommend this sultry thermos hydro. Try it yourself and see how well it works, you won't be disappointed. Rated 5 out of 5 by ronnie71 from Hydra Flask 64 oz Growler I love this Growler! I tested it with carbonated wine and ice water. The wine remains carbonated and cold even opens it several times. My water stayed cool for a 4 hour hiking trip. I'm excited to try this in the summer and see how well it performs. I am very impressed with this product and will recommend it! Rated 5 out of 5 by Vicki D of you need this! This growler is amazing!! It's surprisingly light for its size, and holds a LOT. I filled it with iced water for pre-cold before adding the drink of my choice. I recently used it on a river tubing trip and my friends were jealous, it held more than enough to float four hours. Invest in one for yourself, you won't regret it! Rated 5 out of 5 by Momof3teens from Great growler!!! Hydro flask products never disappoint, I have some of their products and they are all amazing. Growler really keeps your drink ice cold longer than any other brand I've tried, it's well made and handsome too!! I would definitely recommend the Hydro thermos growler to my friends and family. Rated 5 out of 5 by Kd17 from Great Growler! Very happy not to bring a growler around that is not glass or that looks like a moonshine jug! :-)) sturdy construction and keep your drinks nice and cool and fresh. May have to buy another – Christmas is coming Rated 5 out of 5 by the bobrc of the Great Heavy Duty Growler. It's a big growler. Tough job and looks great. I put hot coffee in it to work that stays hot for hours. Also put my favorite adult drink in it for camping which keeps it cool and fresh. Great for taking to the office and trips to parks or parties. Rated 5 out of 5 by Riicanbabi33 from Really love I have been using this growler for a few weeks now and I never plan to stop using it! I fill it in the morning and my water stays cold all day. I don't need to add ice even on hit days. I enjoy it even on cold days when I forget my water in the car doesn't seem to freeze just constantly keeping the water in the cold. Its size can be a pain to carry around but it is great because you have almost all the water you need to drink in a day on your edge. Rated 5 out of 5 by Brothers Wren from Growler Lifetime It belongs to the buy once category. I wish I'd never lost this thing. It's a water bottle, but I think what I like the most is the handle, it's very dense! I can't imagine this ever breaking. It's not light, but you'll fill it with any finished liquid. His mouth is quite wide and easy to clean. I just want this filled with water all the time to refill the family water bottle. Rated 5 out of 5 by LauraCine of Great This Hydro Flask Growler was excellent. I like the size can hold 64 oz and it will last all day. This will make my drink cold or hot and Really like it. It has a great design, easy to carry. I like taking him with me. Great product. Rated 5 out of 5 by Bsandtp from Awesome! My husband loves his Hydro Flask 64 oz Black Growler. It's a little bigger than the glass. Plus it's much better than the murmur of old-fashioned glass. It really keeps the liquid cool for a very long time. Long, thinking of getting another smaller Hydro Flask to travel. Rated 5 out of 5 by Jdea from Great products I love this hydro flask. It's bigger than I expected but I love it perfectly because I drive for long periods of time every day. It makes my water cold even if I don't use ice. The handle makes the journey easy. Rated 5 out of 5 by Orange from Amazing I can say it's huge but I like you don't have to keep filling it it will last you all day. First I tried to keep the water cool all day the next day I tried to keep the tea hot all day. Made very durable and has a nice sleek design. Easy to clean. Perfect for work, camping, hiking, yard work Rated 5 out of 5 by Nikki78 of my favorites so far! So he says beer growler but has to really say any liquid. It's an animal. I live in a state that is not normally cold but recently our temperature has dropped. My daughter plays softball and her game has been pretty cool. I can make hot cocoa that stays hot not only warm, the whole game. He has used it to keep his drinks cool during hot matches and his ice doesn't seem to melt at all. Basically this product is everything it claims to be. Your drink will stay cool or hotter for a longer time. It's very well made, I like the top of the mouth wide on it. I bought a baby bottle cleaning brush to keep the inside clean. It has a shield while the outside feels the same as you have a hot or cold drink. The handle let's take it easy or add a hook to hang it. We apologize for the delayed response. We will be happy to change your hat for you under our Lifetime Warranty. Please fill out the warranty claim through our website: (. After you submit your warranty, the claim number will be emailed to you within 2-3 business days. We apologize for the delayed response. There are certain lids that match the growler. When you file a warranty claim, please specify that you have a growler and provide a photo of the bottle to ensure that we send you out the correct lid. According to our review that has an image, you can definitely put the boot on this growler. Hydroflask may not make the boot 64 oz, but you can definitely find one elsewhere. A wide mouth shut won't fit on a beer growler. The thread is on the inside of the hat, and on the beer growler, the thread is on the outside of the hat. TempShield™ insulation keeps the drink cool for up to 24 hours and up to 12 hours. Yes, you can put water in our Growlers. However, Growler is specifically designed to withstand carbonation for carbonated beverages for long periods of time. There are currently no other alternative caps for Growlers. I will forward this request to our product development team. Hey Nicole, if she's a 64oz growler from outside the beer and wine line then only has one hat. We designed it by Special fresh carry system to keep all the goodness carbonated in if you have a 64oz wide mouth growler from our Hydration line then one of our three wide mouth shuts will fit, wide mouth pliable lid, wide mouth straw lid and wide mouth hydro flip lid. You can distinguish by the thread pattern on your flask. If the hat goes inside and screws in you have a sultry beer. Hope this helps. :) Hydro Flask supports nonprofits focused on building, maintaining, restoring, and providing better access to the park.
