If you need to download r4 kernel/firmware from other offical r4 websites, please email r4wood.com. By Deleted User, 29 July 2020 5.634 0 2 Gilt für Lieferungen in folgendes Land: Deutschland. Lieferzeiten für andere Länder und Informationen zur Berechnung des Liefertermins siehe hier : Liefer- und Zahlungsbedingungen R4i Gold was known for the golden box from the year 2009. It is of good reputation and good sales performance, then all kinds of R4i Gold cards came. This page will be talk about setting up the main R4i Golds for sale on R4-DS-AU. R4 Gold Pro Pro R4 Gold Pro in stock was originally made from www.r4i-gold.com is out of production. 1, Kernel Installation For 2014/2015/2016/2017 version R4 Gold Pro, download the latest revised wood kernel r4isdhc-yellow1.72.rar to your computer, decompress and extract this rar file with tool WinRar, find and get rpg map and DS MENU.dat as shown below. Copy and paste these 2 items into the root folder of your memory card. Now you can connect and play the saved DS games. For r4 gold pro sent after July 23, 2018, you use kernel r4pro20181224. R4-DS-AU also provides pre-install service for this R4 Gold Pro. Note: Don't mix the kernel with old R4 Gold Pro, or console gets a milling black screen. 2, Firmware Update If your R4 Gold Pro's firmware is not compatible with your console system now, the firmware upgrade can usually fix this problem. Download the latest firmware patch, for example fwUpdate_V6.20.rar, decompress and extract this rar file with tool WinRar, find and get fwUpdate_V6.20.nds, copy and store it to the same place where kernel stored on your memory card. Now you need to load another console into R4 gold pro interface, press a button to run that firmware patch. Some programs are written into your r4 gold IC chip during firmware upgrade, and that's why you may damage your r4 card if it happens to disable the console when running the patch. After the firmware upgrade is complete, you can run this r4 3ds gold pro again on your former console. R4i GOLD PLUS This improved R4i GOLD was originally made from www.r4ids.com, the first r4i gold website. There are two packages for R4i GOLD PLUS - Deluxe and Stardard. 1, Kernel Installation There is no kernel difference between two packages, the installation is the same. Download the latest kernel of r4ids.com, for example r4i gold plus v3 0.rar, get this xxx.rar file to the computer, find and copy moonshl2, SYSTEM, r4. THAT in the root folder of the memory card (FAT32 formatted), simultaneously, drag and pull some games into the memory card, now you connect and play. 2, Firmware Upgrade Your console reads an error message when booting R4i GOLD PLUS, then you need to do firmware upgrade. There are two update methods - (a) Update on a console. (a) Click and go to r4ids.com official download page, find and download the one shown as deluxe edition firmware v2.x download, get plus firmware update v2 x.rar, extract and get an update.bin, copy and save this UPDATE.bin to the root directory where the kernel files are, now connect memory card, R4i GOLD PLUS and burner in PC USB port, wait a few minutes until flashes in LED lighting Firmware upgrade is complete. If you don't have this blue burner, you'll find a console that needs to update the following method (b). (b) Go to r4ids.com official download a shown as standard edition firmware v2.x download, get plus firmware v2.x download, get plus firmware softupdate v2 x.rar, unpack and get a plus firmware softupdate v2 x.rar, unpack and get a plus firmware softupdate v2 x.nds, copy and save these xxx.nds to the root directory where the kernel files are, now boot up your R4i GOLD PLUS on your console, navigate and mark plus firmware softupdate v2 x.nds, press a button to run the patch, then do whatever instructions from your console until the upgrade is complete. Wood R4i Gold 3DS Original R4i Gold 3DS card is known for Wood R4 kernel with collaboration between www.r4ids.cn and Yellow Wood Goblin. 1, Kernel Installation Download the latest wood pit Wood R4iGold V1.6x.rar to the computer, decompress and extract this rar file with tool WinRar, find and get rpg and DS MENU. THAT, copy and paste these 2 items into the root directory of your memory card. Now you can connect and play the saved DS games. 2, Install Moonshell2.0 If you want to enjoy mp3 music or dpg moives, you need to install this Moonshell2.0 along with wood kernel above. How? Download the Moonshell2.0 from page receive a rar file, decompress on your computer and get moonshl2, moonmemo, DS MSHL. NDS, copy and paste these 3 items together with rpg and DS MENU. THAT, now that you enjoy multimedia features on r4i gold 3ds. 3, Firmware Upgrade If your 3DS blocks this RTS R4i Gold 3DS, you follow the method below to have your R4i Gold 3DS firmware updated. For example, download the latest firmware patch, r4igold 3DS62 Patch.rar to your computer, decomprimeer and extract this rar file with tool WinRar, find and get R4iGold 3DS62 Patch NDSL 3DS.nds, R4iGold 3DS62 Patch NDSi 3DS.nds, readme.txt, read the readme.txt and choose the corresponding patch to solve your problem. Usually we have to use R4iGold 3DS62 Patch NDSi 3DS.nds to update. If you have any questions about setting up your R4i Gold card, please contact us freely. Home 2 Catridges here work as adapters between ROMs stored on memory card and Nintendo hand-held console, software - kernel are required to be installed accordingly to get game compatibility. Therefore, wrong kernel or wrong installation gets games not working. However, Nintendo will usually update its flashcard blacklist for each system update, once your card is listed, 3DS/DSi will be locked in black screen and displays error message as displayed. An error occurred. Hold down the POWER button to disable the system. For more information, see the Operations Manual. We then need to do firmware upgrade to bypass the console block. Flashcard companies will use their official firmware patches to fix it. Sometimes we want to enjoy more media like RPG movies, jpg images and text files, we'll need to install additional Moonshell, although it's usually a web address printed on the card sticker and packaging box. (a) WWW.R4I-SDHC.COM on sticker (b) Http://WWW.R4I-SDHC.COM on box If you don't know how to install or update, click on the links below to get the guide, or contact us directly.
