The book tells the story of two sisters in France during World War II and their struggle to survive and resist german occupation of France. It was inspired by the story of a Belgian woman, Andr e de Jongh, who helped Allied pilots flee the Nazi territory. [1] [2] To date, Nightingale has sold more than 2 million copies and has been published in 43 languages. [3] The novel also earned places on several bestseller lists, and was selected by TriStar Pictures in March 2015 when Melanie Laurent was signed to direct the film. [3] Synopsis The book uses the written device of a frame story, the frame is presented as a first-person narration in memory of The Second World War. The sisters are estranged from each other and from their father, and the book follows their two different paths. Vianne, the eldest sister, is a married teacher who raises her 8-year-old daughter Sophie in her childhood home called Le Jardin in the town of Carrievau. Vianne's husband Antoine has been recruited and subsequently imprisoned as a prisoner of war. At home, Vianne survives the fact that the Germans have occupied France since the Battle of France, struggled to keep themselves and their daughters alive in the face of poor food rations, the dwindling francs left behind by Antoine, the Wehrmacht and SS officers in their homes, the loss of their jobs and the growing reins of the city's Jews. The first officer to be at home is Wolfgang Beck, a kind man with a family he has left behind. One is Von Richter, a more sadistic officer who using Vianne for physical and sexual abuse. Later in the novel, when Vianne's best friend Rachel de Champlain is deported to a concentration camp, she adopts Rachel's three-year-old son, Ari, and renames her Daniel to hide his Jewish identity. Soon after, Vianne is responsible for hiding 19 Jewish children in a nearby monastery orphanage. Von Richter is using sexual assault as a way to control Vianne. When the war ends, Antoine returns from the harmony camp, but Vianne still has to cope with the aftermath of the occupation – she expects Von Richter as a result of being raped, and Ari, whom she has come to love as a boy, is taken away from her United states. Isabelle, a younger and more ardent sister, decides to take an active role in opposing the occupation. After being expelled from school, he travels from Paris to Carrievau on foot and meets a young rebel named Ga tan Dubois along the way. In Carrievau, he joins the French Resistance and is initially tasked with distributing anti-Nazi propaganda. After moving to a cell in Paris, he develops a plan to help Allied airmen flee to the British Embassy in neutral Spain, where they can be repatriated. He has thrived, and with the support of other actors in the resistance (including his father, with whom he is starting to build a relationship) and British M19, this will become his primary task throughout the war. He deserves the code name Nightingale, and the Nazis are actively hunting him. He is eventually imprisoned, and when his father falsely confesses to being Nightingale to save him, he is sent to a concentration camp in Germany. He's going through hell at the camp, but he's going to make it long enough to see the war end. He's going to make it to Vianne, and they're going to make up. He's going to meet Ga tan one more time before he dies of mistreatment. The book ends with an elderly narrator revealed to be faulty, who receives an invitation to Paris for an event to remember his sister, The Nightingale. She travels with her son Julien, who is unaware of her family's activities during the war and her actual parenting. After the event, Vianne meets Ari, and she comes to peace with her war memories. Inspiration Nightingale's characters themselves are not real people, although some of their actions are based on real historical figures. Isabelle's escape route over allied airmen who crashed over the Pyrenees was based on the comet line of 24-year-old Andr e de Jongh, a Belgian woman who helped pilots and others escape. [4] Just like Isabelle, de Jongh personally escorted many across the Pyrenees on foot; By the end of the war, he had assisted 118 airmen. Like Isabelle, de Jongh was captured at the end of the war and sent to the Ravensbr ck concentration camp instead of executed because the Nazis did not believe his claim that he himself was the organizer of the route. However, de Jongh lived long after the war, became countess in 1985 and finally died in 2007, while in the novel Isabelle dies shortly after being released from the camp. De Jongh's story also inspired Hannah to conduct further research and, during the French Resistance, found stories of women willing to risk their lives and children to protect Jewish families; This became the inspiration for the faulty character in the book. [4] Other historical figures mentioned include First World War Nurse Edith Cavell. [4] Book receipt reviews were generally [5] Review published by Kirkus notes: [Hannah's] tendency to sentimentalize undermines the gravitas of this story... Still a respectful and absorbing page turner. [6] The novel also sold well: it spent 45 weeks on the NPR Hardcover Fiction Bestseller List and 20 weeks on the New York Times bestseller list. [7] [8] Film adaptation Main article: The Nightingale (2021 film) TriStar Pictures selected the book in March 2015 for screen adaptation, ann Peacock writes and Elizabeth Cantillon produces. [8] [9] In August 2016, it was announced that Michelle MacLaren would direct and rewrite the film with John Sayles until MacLaren left before production closed. In December 2019, Melanie Laurent signed on to direct Dana Stevens from a script with Cantillon. Dakota and Elle Fanning star for the first time as the sisters share scenes in the movie; previously, they had played the same character in different eras, in separate scenes. [11] The film is scheduled for release on December 22, 2021. [12] References to ^ Nightingale: Behind the Book. KristinHannah.com.
