Space needle parking

Following Governor Inslee's announcement of additional temporary restrictions in response to the recent rapid expansion of COVID-19 in Washington, Space Needle has stopped all food and beverage supply in doors and reduced capacity to less than 25%. The safety of our guests and team members is our top priority, which is why we have made investments to implement the most efficient cleaning technologies and protocols available today with scientific support. We've made a lot of changes to include redundant layers of cleaning operations — some you can see some are made in the background. What hasn't changed is the breathtaking view of the needle of the universe. Whether you want to see natural attractions or Instagram city lights at night, The Space Needle is almost always open. The last ticket was sold 45 minutes before the finish, which is listed below.
