Visit the help section or contact us The Swan Constellation holds the key to prove that life came from the heavens—and will eventually return there. Best-selling author Andrew Collins has revealed an astronomy that is about 17,000 years old, with standing stones, temples, and monuments across the globe geared towards the stars of the Swan. It also found that the use of deep caves by paleolithic man led to the rise of religious thought and belief in the stellar origins of life. Now modern technology has confirmed that high-energy particles come from a binary star known as Cygnus X3. Ancient humans knew what science ultimately verifies: that the DNA of life originally came from deep space.
