With all my heart, really. I don't have enough words, I just have a lot and a lot of love for this TV series, even more than I have for the book (which I also loved very much). It is very difficult for a television series to be better than the material in the book, but Good Omens, in its TV version, was a beauty to himself. As a book lover, and a passionate book fan and sender, I can only praise what Neil Gaiman did here, with all the amazing cast and crew that was part of the ad I love this. With all my heart, really. It is very difficult for a television series to be better than the material in the book, but Good Omens, in its TV version, was a beauty to himself. As a book lover, and a passionate book and loader fan, I can only praise what Neil Gaiman did here, with all the incredible cast and crew that was part of the adaptation. Everything is done with such care and love, that I can only wish that every adaptation of the book was so good. Of course, after seeing what everyone had done with Good Omens, it was only a matter of time before I got my hands on the Book of Scripts. And it made me love the work of the actors, the director and the whole cast, even more. You see, I've already seen the TV series twice, so I could see every scene in my head as I read the Scripts. It was amazing to see how the actors did something so significant about this, how they took what can be read as simple words and made them feel so deep, so emotional and funny, terrifying and feel so... I don't know, so alive. Again, more, This. I loved Michael Sheen and David Tennant, like Aziraphale and Crowley. I loved how they were all so comfortable and easy to show different characters and relationships, especially transgender, or non-binary characters, and what I see as an asexual beatifull relationship. I love what everyone did with this series, and especially, I loved that they made diversity and representation such an important fact here. I feel like this series appeared just as I needed it, while I was finishing college and gave me the impetus I needed to start writing and drawing again. So, thank you for that, people. To all who made this happen, satirical and charming Armaggedon, like a book, and as a television series. I'm sure I enjoyed it. ... more Page 2 'Detour... It will soon be shown on the BBC, the series is written and directed by Neil himself and stars David Tennant, Michael Sheen, Jon Hamm and Miranda Richardson, to name just a few. Before he died, Terry Pratchett asked Neil Gaiman to make a television series of the beloved international novel they wrote together about the end of the world. What followed was almost... Ineffable. For six glorious episodes, Neil brought to life an angel, Aziraphale, and a demon, Crowley (the only things standing between us and the inevitable Armagedron) on some of the most extraordinary televisions ever made. Here you'll find the scripts Neil wrote, which contain a lot that's new and revealing, and even several scenes along which never made it to the final cut. For the first time, this edition collects all the missing bits - from a certain Four Horsemen to a small demonic shopping trip - and reveals the secrets of the show, which, by its very nature, is known to ask for the impossible.
