Cold steel gurkha kukri knife

noticeably downward curved blade, has long been identified by Nepal's Gurkha Warriors, the ferocious mercenaries who have wielded this blade for more than 150 years in service to the British Empire. Cold Steel Gurkha Kukri was inspired by cold steel president, Lynn C. Thompson in close collaboration with Dr. Maung Gyi, chief instructor of the American Bando Association, and a renowned martial artist with a wide range of knowledge and skills. According to Dr. Gyi's substitute, Lynn got a glimpse of the full potential of Kukri and learned it was not just a chopping weapon, but a piercing, slashing, and smashing weapon as well. Smashing techniques allow Kukri to act as a hammer or hammer or deliver a role without fatal blows in self-defense. A concentrated blow to the blade's back can break bones or be deadly if it is facing the head. With Dr. Gyi's input, Thompson designed a longer, narrower point for Gurkha Kukri with more distal narrowing of the spine. This led to a thinner, sharper point that can be deeply driven into thick, difficult targets with minimal effort. Finally a masterfully designed Kraton handle was added to increase the blade's fierce potential. Perfectly contoured and deeply tempered, it offers excellent non-slip grip and pillows hand out of shock the hardest blow. Gurkha Kukri's VG-1 San Mai III® blade will out-chop any factory or handmade knives; including swords twice its size, even expensive, hand-chiseled Japanese Katanas. This is the heaviest Kukri on the market. The blade is almost an inch wider at the end than at the handle, shifting the knife's equilibrium point forward to allow a significant impact struck with minimal effort, using inertation alone to complete the cut. Each Gurkha Kukri is supplied with Secure-Ex cladding to protect the blade and allow you to wear it safely and safely on your side, always ready to defend you and your loved ones. Specifications: Blade Length: 12 , Total length: 17, Steel: VG-1 San Mai III, Weight: 22 oz., Blade thickness: 5/16, Handle: 5 Long Kraton, Doctor: Secure-Ex Present. Chris H on 06/06/2017 08:41: Ordered this on 5/23 and received 5/27. Very sharp right out of the box. A very solid knife feels great in hand. This is also great. The confirmation of the e-mail order showed shipping costs about \$7.99. Knowing that it comes from the west coast to the east coast, I thought it was a bit strange. When I looked at the final bill shipping was actually \$16.99. I'm not worried because that's usually what it costs to go clear all over the country during this period. In general, I am very pleased with this purchase, especially the short waiting time. Nick Mchugh on 01/13/2017 01:33am Beautiful knife, razor sharp and the best customer service that I had together at the time. Nothing is much of a trouble. Really big knife and business. John Danow on 05/16/2016 10:21 Astounding opener! Excellent customer service from Oso Grande. You will not be disappointed with this purchase. Drake Rogers on 08/19/2015 12:43 If you get the money and want the best it is that's it. Weight, balance, sharpness, ease of sharpening, assing, finish it's just the cost of everything, cuts like a sword, Nepal kukris cut, but the extra weight slows them down. When you watch Cold Steel's cutting video remember some of these guys are real big and throw their whole body into it, the best out there. Rod1Malkin on 05/11/2015 07:48Am There is something special about this knife. It just took it a month or so. but it has become part of my life, even if it sits in its stop, away from me in its storage location. I think it's the san mai aspect that gives it your heart. To Love that gives us our best blades!%uFEFF Glen Campbell on 09/09/2014 08:26 Great knife.very reliable edged weapon.every soldier has the same one! One!
