I poked on a pile of eggs scratched on my plate, wondering if I could be falsely ill to slow my first day of the senior year a little longer. Maybe I can claim food poisoning from my takeaway ordered yesterday? do not. My mother wouldn't buy it, and even though she did, I really didn't want my favorite Chinese restaurant to be slavered with lawsuits. Hmm ... what about the flu? Mono? Strep throat? Amnesia suddenly? My mind is racing through a million false reasons why I wouldn't be able to go to school today, but I had a sinking feeling my mom would see through them all in a minute, and I'd just got myself a nice reason instead. ... Virtual? Virtual? I jumped, my fork collided with a plate. What do you say? I asked, trying to regain my bearing after disappearing in my mind for the past ten minutes. Do you feel ok? my mother repeated. You barely touch your food. I looked down and realised he was right. Scratched eggs and bacon-usually my favorite breakfast-is far from gone. I took a deep breath, about to lie and say no, I didn't feel ok and I didn't wake up to class today, but unfortunately, my conscience kicked in the final moments. I'm fine, I say, patching a smile on my face. I just wasn't really hungry. My mother sticks her eyebrows and takes her coffee sips. He's like Lorelai from Gilmore Girls—a whole coffee addict. He has at least eight cups a day, despite my insistence that so much caffeine is bad for anyone. You would think he would know that, because he worked in the health industry and all. Nervous? I was devastating. Yes, I guess. That's one way to put it, although the nerves don't seem like enough descriptions for a Texas-sized anxiety hole in my stomach. You'll be fine, sweet, says Mom soothingly. You were fine last year. Straight A! And you're no longer new. that's I'm not new, which means after a year at Valesca Academy, I know how it works. Believe me, it's not enough. But more to that later. You're right, I agree. I by relying on a few spoonfuls of eggs into my mouth, my mom watching carefully. They felt like cardboard, which I knew was more me than cooking. However, I managed to eat about half before I couldn't take it anymore. Again. I had to go to school, I might as well be in a hurry and try to finish today as soon as possible. Ok, I headed out, I said, silent my bag over my shoulder. I'll come across you later. Have a good day, honey. Dear you. Love you too. When I got outside, I was relieved to see that even too much skies, it wasn't raining anymore. Hopefully the rain won't start until I'm safe and warm inside Valesca's walls, safely becoming a relative term. I guess now is a good time to back up and explain everything to you. My name is Maya Lindberg, and until a year ago, I was happy to live in San Francisco with my parents, doing all the things ordinary teenagers do and attending regular high school who, while it had her climate problem, were paradise versus Valesca. Then, at the end of my sophomore year, my dad got promoted to his company's headquarters in New York. By the time we found it, it was too late for me to apply for any good school in the city. Unfortunately for me, his new boss knows the headmaster of the Valesca Academy, which is located two hours from New York. He pulled a few strings so I could apply for late admissions, and not only did I accept, I also received a huge scholarship, which is how my family uprooted itself to settle into one of the richest cities in the United States. I mean, the only school there is private and costs \$100,000 a year to attend. Objectively, Valesca isn't bad. In fact, it is considered the best school in the country, and boasts nobel alumni, Pulitzer, and Oscar-winning to fill dance halls (as on school grounds, which are commonly used for dances). Unfortunately, it's also filled with the most snobbiest, most shallow, and most materialistic people I've ever met in my entire life. What makes it worse is their way all the cows are before Scions, which is another story to themselves. Scions are nicknames given to the four hottest people in school: Zack Perry, Carlo Tevasco, Parker Remington, and their leader, Roman Fiori. Their families, some of the wealthiest in the world, actually founded towns and schools, meaning everyone was afraid of them. They usually take care of themselves, unless they terror the some poor children who see them the wrong way. No, I'm not joking. Wrong see any Scions and you might as well kiss your social, and sometimes academic, goodbye live. The abuse brought by the entire student on the offender was so famously most devastating forced to evacuate schools. Do I? Well, I've never had a direct run with Scions. It took me all a period of class when I started here last year to realize how things worked, and I was out of my way to avoid them. That scan, it has worked. I've never been closer than fifty feet to them, which is definitely a good thing. I mean, it may seem to some people, but I know Scions has a school faculty eating off the palm of their hands. I don't want to risk doing something that might trigger their wrath, or there goes my teacher's suggestion and my dream of attending Stanford's goodbye. The manga was made a variety of live action dramas in Japan, Taiwan (Meteor Garden), and Korea. That is, some versions of the direct action have been inspired. I have nothing against redytelling. I love them. I really adore telling fairy tales and classic alternative versions, but there needs to be a point to rediscrinate. You can't just The characters are in a new atmosphere and call it a day, yet that's exactly this book.1. Poor girls are fortunate herserf to gain admission in a highly prestigious high school, Expensive attended by wealthy assholes He pulled out some strings so I could apply for late admissions, and not only did I accept, I also received a huge scholarship, which is how my own uprooted family to finish into one of the richest cities in the U.S. I mean, the only school there is private and costs \$100,000 a year to attend. Unfortunately, it's also filled with the most snobbiest, most shallow, and most materialistic people I've ever met in my entire life. 2. Said school is ruled by four incredible, wealthy handsome people who everyone worships and fears. Hello F4! Scions are nicknames given to the four hottest people in school: Zack Perry, Carlo Tevasco, Parker Remington, and their leader, Roman Fiori. Their families, some of the wealthiest in the world, actually founded towns and schools, meaning everyone was afraid of them. They usually take care of themselves, unless they terror the some poor children who see them the wrong way. 3. F4 Scions pretty much do whatever they like avoiding them is actually quite simple, given that Scions have their own classroom, where they come and go as they please; nook their own private in the dining room, and the mass of students around them when they go. It's a miracle they learn nothing in school. 4. Scions' big entrances are as ridiculous as they are in Everyone's F4 unless I wait with a fighting breath for Scotland to appear and when they finally perform, the next swoon and scream are a million times stronger than ever. As if the scene could no longer get sick, the clouds decided to part at the time, and the golden beams of sunlight highlighted quartets like they were really everyone's gods thinking they were. 5. There is a standard F4, Tsubasa Doumyouji or Roman Fiori leader//love #1. The sole heir to the world's largest fate, which includes shipping, oil, electronics, telecommunications, textiles, and sports franchises; The athletic prodigy originated as the second arrival of Michael Jordan, Pele, and Joe Montana rolled into one; the hottest single specimen to ever walk the face of this earth. Rui Hanazawa or Carlos Tevasco, a strong and silent type. The tower, the Dark Colombian, although equally beautiful, is nowhere near as blatantly smooth and charming at her friend. In fact, he looked a little angry at all the ballyhoo that greeted him. I may be surprised; A black belt in five types of martial arts and the son of a multibillionaire property developer with a relationship rumoured to the mafia, Carlo seems to be a quiet Scion and least gaining attention. Even his car, a simple but sturdy black Range Rover, reflects his personality. his personality. Minamasa, or the cheerful Zack Perry, is good. Greek-god-look-a-like fan hopped off his bright yellow Porsche, his golden hair bearded in the sun like a halo. In my opinion, a good Zack is always as if he's the only one who's even a human being deep in the group. And Soujirou Nishikado or Parker Remington, playboy. Stretching the door of her red Lamborghini, I felt like the famous playboy had to move in slow motion as she grabbed a hand through her wavy, golden brown hair. The son of the most powerful figure in the world of finance and international banking leaned on the side of his car, his eyes protected by a pair of airplanes, and twinkling smiles waved to the crowd, causing more than a few girls to almost sing. 6. The main character really hates plumbum asshole. As far as I'm concerned, Roman Fiori is life's greatest jerk and snob when they come. The rest goes as designed. There was an unfortunate meeting, he met a man, they fell in love. There's a love triangle. There are persistent girls. There is no point in this book, when the original manga exists, when there are various versions of the drama available to watch. It is a famous classic oppression, and it is one that is completely futile. The book turns out to be an abundant teen drama that doesn't translate well into a Western school setting. He's boring. It's repetitive. He jumped from POV to POV and that hell than me. ... More... More
