Tuff stuff starting lineup price guide

For 10 years, sports collectors have been striving to create full sets of figures for The Beginner. The result has been a rapidly growing market where mint status SLUs have become big ticket items. In this first guide of its kind, you will find photos, pricing hisds and insider information about each Starting Series figure published in the United States. Written by Tuff Stuff magazine price guide editor Jim Warren II, this book is a must for any collector who wants to know more about the hottest segment of the sports memorabilia market. Tuff Stuff Price Guides Once upon a time, Sports Collectors had a sister publication called Tuff Stuff, which included various price guides of Digest cards. Although this publication no longer exists, so many collectors were using it as a checklist because we decided to keep outdated price guides. So, here are the price guides in question at that time:Thanks for watching! Kenner published his first NBA Starting Line-up in 1988. Contrary to the figures you can buy today, these figures only had a very rough resembl of the stars that should have been, but they were all present at the time, and they filled the gap in the market. Looking for an Action Figure Price Guide and Checklists? AFR ULTIMATE ACTION FIGURE GUIDE IS HERE! Kenner published his first NBA Starting Line-up in 1988. Contrary to the figures you can buy today, these figures only had a very rough resembl of the stars that should have been, but they were all present at the time, and they filled the gap in the market. The figures were expressed in height of 4-inch and neck, shoulder and waist with a base reminiscent of a basketball court. These figures also came with a trading card of the player. NBA Starter Lineup figures were quickly a huge success. Initially the figures were aimed at the mass market and sold out completely through major retail stores like Toys R Us but Kenner soon came to realize that there were actually more sales from hobby sellers. What are the Rare NBA Kenner Starting Lineup Figures? According to the 2007 Online Tuff Stuff SPORTS FIGURES PRICE GUIDE, these were the rarest and most valuable figures at the time. Starting Artist's action figure prices so please note that this is extremely volatile as it is significantly different, but it still acts as a good guide to finding more valuable and more difficult figures. Keep in mind that these prices are also based on MIB figures.
