# Star wars battlefront 2 xbox 360 cheats

Get the latest Star Wars Front II cheats, icons, unlockables, hints, Easter eggs, glitches, tips, tricks, hacks, downloads, hints, clues, FAQ, roaming, and more for Xbox . CheatCodes.com has everything you need to win every game you play! Use the links above or scroll down see all the Xbox cheats available to Star Wars Front II. Walk on the air! Become rebels in hoth. Then get the invincible code. Get the speed of the snow and turn sharp left. Go to the secret cellar, but stay in the air and go strait. The ground there was no land and out. Then you will be walking on the air. A secret hideout on Huth will be rebels, make sure that you have invincible cheating on. Take the snowspeeder and turn the full circle right to go ahead and look down to the shring and the ground. If someone's with you, they're going to die. Destroy ing AT-ATs is easier in Huth, be luke pilot and go to THE AT-AT and jump on it again. from going to her neck and starting to cut off she's head. Sooner or later you will have to jump back to earth killing people for health but right after you jump back on it! You'll destory before it gets in range with the base. Get the weapons and upgrade the prize b permanence all you have to do is get your medal ranking up to the legendary and you will get the prize that you give it permanently. Example: Get a frenzy to the legendary to get an elite gun permanently. Infinite Throttle Power goes to be assaulted in mussioyudiada' and be a character that has a throttle power. Well you can first turn the invincible cheat on (up until left to bottom left to top left until left) get the ship that is easy. Easy win in space can be very difficult to win in a space battle but if you land in the enemy bace take out the control of the auto towers inside, that will give you the advantage of going Destroy the armor when you do that you go and get a warship and go kill all on inside PS: Warlike is for your teammates to spawn there. How to use DRODIKA There are some myths about Drodikas that are not true. One is that the noise cutter will heal drodika's cured and/or health. That's not true! However, there is an easy way to defend the command center with drodika. I'm sure you're familiar with going to a friendly command center, switching to an engineer, throwing some health packs and back into any category you want. well cis has even Trick. When defending the command center key to drodika. Then when you get your shield press low Y to determine your grade. Choose drodika again and your shields and heath will be restored! Also try to stay deployed with your repeating speakers ready. You may move slowly but elite online players will be able to kill you with any category before you have a chance to deploy, let alone put your armor up and kill them. Invincble driving the first post, make sure your work in a moment with off-fire friendly. Then play on kashyyyk as droids or empire. After that, get into the tank and use the push to go over the hill and around the wall. Then destroy the wall and control the command center. Now that you have, become an engineer and repair the wall. Since the wall is technically belonging to the clones and the rebels, it will appear as a blue object when it aims to control the wall, so they will not be able to destroy it. This will make it very difficult for them to regain the command position. How to get past the sea wall on Kashyyyk to get past the sea wall takes speed, agility, and endurance. First of all do not become an engineer or anything like that go with a soldier or a man with a rocket launcher(!If you get a man with a rocket launcher make sure you know how to use a magnifying gun efficiently this is simply running mighty past their defenses and on the left side there is something kind of wheel on the wall destroyit it quickly and evade either the tro bombs or shoot at it or a rocket launcher. The sea wall) and destroy it several times to see where it is and what it looks like. A quick way to get the Archers Medal in Corusant to get your fast bowler's medal in corusant you'll be on rebel forces on the galactic civil war of high rebellion, or you can play with droids. But anyway to start becoming a robot killer or shooters and try to be the first soldier in the field and run to the lobby facing base 4 and 3 (base 4 is a base with chairs surrounding the command center) and make sure that when there's a huge crowd of enemy soldiers coming out of base 3 has the way to the upper library) and snipe them down one by one. You should be able to get your shooters badge and if you can't get it within the first few clips of ammo or you've run out of ammo run just a few meters and get health and ammo. The weakness in the weak spot is located in the neck if you get four of those that get the prize. Restore armor do you get angry when the enemy destroys your armor and you can't protect your systems? Not again! When they destroy your armor use fusion cutter pilots to fix your armor. It will take a few minutes, but it's worth it. It's easy for my grandfather to kill on the rise of the empire going to one player and choosing the rise of the empire. Play the area until you get corascent: When you have to protect the cabinets choose a clone leader. Use e chaingun and will kill the Jedi easily. Get an Easly pilot assistant if you want a co-pilot in your car (if you use a car you can have a co-pilot). Put your target on an ally and take advantage of the direction plate and your ally will be your co-pilot or on turret vehicles. But on the AT-TA you need two co-pilots and one to turret on top one in the back. My grandfather killed the easiest way to kill the Jedi is to run him over or land it right??? Error. Try any of these doesn't work. I tried, and I never succeeded. You'll be not gidto for this job, you must have a friendly shot off and you must be on a place like UTAPAU where you can fall to your own death. Lure the Jedi/Seth you need to get rid of them towards the edge of the cliff or platform, and if you are a mine-type assault place, but if you don't wait until it's within striking distance and put the thermal detonator in your own feet, wait for them to approach, then run as they are blown off the cliff/platform. Destroy those big vehicles! Sometimes it is very difficult to destroy AT-ATs and AT-STs. He's not back anymore! Make sure you are a man of specific rockets and mines. When a car comes in front of you, arm the zinal of mine under its own step. Make sure you have frienly shot or will kill yourself! Invisible multiplayer house only! Heroes v.s. villains and be a hero. Choose Yoda and go to one of the purple banner things with a cage under neath it. Go to the wall and jump until you get up to the edge of the purple thing. Jump once more and while jumping go ahead. If done correctly you will be inside the house and the walls will be invisible. Since your Yoda use pull force on The Villan and keep doing it until there is right in front of you. Whatever can't see you since inside your house and you can attack enemeis inside the house so easy to rack up kills. Have a woomba all you have to do is go to Huth 3 times. And the last time I went to Huth, you'd be a Woomba! Plus..... Don't forget to be also with empire 3 times. Invincible top left to bottom left up to top left. Funny name create a profile under the name 'Nothing' (don't benefit from it!) and if you get killed caption will say Unit365 will kill nothing or nothing kill Unit365 Infinte single-player and multiplayer ammo. What you do is, on the D panel, press up, down, left, down (2x), left, bottom (2x), left, bottom (3x). If you enter the code correctly, you should hear a sound. Good time with Infinity Ammo! Open all units at the beginning of the press level. Then press up, up, up, left, right, bottom, bottom, bottom. You should hear a noise indicating that you got it correctly. Slow-motion sounds only one player! During the game, turn off, and enter the following on the direction or left panel Up (x3), left, top, down, up (x2), left, down (x3), left, top, down (x2), left, right. You should hear a noise indicating that you entered it correctly. Infinite ammunition of only one player! During the game, turn off and insert the following on the direction board or left thumb stick: up, down, left, down (x2), left, down (x2), left, bottom (x3), left, right. You should hear a noise indicating that you entered it correctly. Wampa hit only one player effects! During the game, pause, and insert the following on the direction board or left thumb stick: up, down, left, down, left, right, right. You should hear a noise indicating that you entered it correctly. There is no single player or multiplayer player. During the game, pause and insert the following on the directionboard or left thumb stick: up (x4), left, top (x2), down, left, down, up (x2), left, right, left, right. You should hear a noise indicating that you entered it correctly. We don't have any unlockables for Star Wars Front II yet. If you have any unlockables please submit them. We don't have Easter eggs for Star Wars II yet. If you have any unlockables please submit them. Glitch in Kashyyyk there is this bug on kashyyyk you get ammunition without robot ammunition, without being a smuggler or engineer, or by picking up refills. You know those platforms above ground that make good sniping patches were in. Well if you go to the left platform while crossing the ocean and flip towards base 2 somewhat in the middle you'll see red circles indicating that you're gaining ammunition. This bug really works! I was amazed when I first saw it happen and I hope you can find out. Darth Sideous malfunctioned while strangling someone as sideous, holding L and switching to lightning. Your traumatic person is still acting as if they're being strangled and traumatized at the same time. Their health goes down twice as fast as well! A glitch in the front level as in this bug should take you more than 1 minute. First to make this easier you may want to run an invincible code and have a Jedi with a push. For this all you have to do is make the enemy fall into the trap of the door buy the forehead and have to monter there eat the enemy but u must kill him when it is in the mouth of the beast for all the potions to get out about 20 doses will fly in the area. This is a fun glitch. We don't have clues or questions and answers to Star Wars II yet. If you have any unlockables please submit them. they.
