Suddenly it stopped? The ball's gone? To prevent the interruption of screen recording, we recommend that you freeze some large apps in the background process and allow Super Screen Recorder permission. Allowed Items Make sure that your phone's battery saver doesn't limit app activity and opens the phone's background process, lock the recorder to prevent the recorder process from being interrupted by the Android2 system. A. Unfortunately, the current Android system does not allow the app to record audio on the internal system. Please use the speaker when recording the app to record the sound through the b microphone. In addition, the Android system does not allow multiple apps to use the microphone at the same time. This means that the Video Call app and Super Screen Recorder cannot record audio at the same time. Please click on the link allow us to translate this app into your language: Your language has been translated, you can edit the translation and we reward the participants. For details, you can contact: superscreenrecorder@gmail.com If you have suggestions, bug reports, suggestions or you can help with translation, please contact us at superscreenrecorder@gmail.com wish you a good day! Install the file until it is finished (make sure to allow unknown sources). Now just click on the app icon to open and use it. Try this app may be useful for you, applock premium apk latest. Screenshot of AZ Screen Recorder Pro PUBLIC REVIEW BY KENSHEE Moya: This is the best screen recorder I've used so far, the screen is not delayed while recording, even if the file already has 2GB, and the settings are quite straightforward, it is friendly to beginners while maintaining professional standards. No pop-up ads Reviewed by Devi Raj: Az Screen Recorder mod is a very good app for screen recording. We can trim the video, even we can add backgrounds as well and many features. But it would be great if you could add more filters. I have to go to the gallery and then you can use az filter as the best screen recorder app for me. If you ask me which app is good at saving my screen, I recommend you use the AZ Premium Mod Apk Screen Recorder (2020), it is the easiest app to catch the screen. I want 5 stars for this application to share 0 Share0.
