Download: 2020-21 NCAA Prohibited Substances (pdf) NCAA Division I Bylaw 12 and NCAA Division II and III Bylaw 14 require schools to provide drug education to all student-athletes. The director of athletics or designers of the director of athletics will unpack all student-athletes' list of banned drug classes and educate them about products that could contain prohibited drugs. All student-athletes must be informed that the list can be changed during the academic year, that updates can be found on the NCAA website (ncaa.org) and notify the appropriate procedures of the athletic department to expand list updates. It is the responsibility of the student-athlete to check with appropriate or specific athletic staff before using any substance. The NCAA bans the following drug lessons. Stimulants. Anabolic agents. Alcohol and beta blockers (prohibited only because of the rifle). Diuretics and masking agents. Narcotics. Cannabinoids. Peptide hormones, growth factors, related substances and mimetics. Hormonal and metabolic modulators (anti-estrogens). Beta-2 agonists. Please note, for example: Any substance chemical/pharmacologically associated with all of the above classes is also prohibited and without the immediate approval of any government regulatory health authority for use in human therapy (e.g. drugs under preclinical or clinical development or discontinued, designer drugs, substances approved only for veterinary use). The institution and student-athlete will be liable for all drugs within the class of prohibited drugs regardless of whether they are specifically identified. Examples of substances from each class can be found in ncaa.org/drugtesting. There is no complete list of prohibited substances. Substances and methods subject to limitations: blood and gene doping. Local anesthetics (allowed under some conditions). Manipulation of urine samples. Beta-2 agonists (allowed only inhalation with a prescription). Tampering with urine samples. NCAA Nutritional/Nutritional Supplements: Before consuming any dietary/dietary supplement, review the product and its label with athletic department personnel. Many dietary supplements are contaminated with prohibited substances not listed on the label. Dietary supplements, including vitamins and minerals, are not well regulated and can cause a positive drug test. Student-athletes have tested positive and lost their eligibility using dietary/dietary supplements. Many dietary supplements are contaminated with prohibited substances not listed on the label. Each product containing the ingredient of a dietary supplement is taken at your own risk. Athletic department staff should provide guidance to student-athletes on the use of supplements, including a directive that any product be checked by qualified staff members prior to consumption. NCAA only subscribes to Drug Free Sport AXISTM authoritative review of label ingredients in medicines and dietary/dietary supplements.
