The hunger games unblocked movies

Jennifer Lawrence doesn't seem to be wrong. But apparently he can. Did you know he knocked out co-star Josh Hutcherson when they were joking on set, causing him to have a concussion? Yes. And did you know that he almost didn't accept the infamous role of Katniss Everdeen? Eh eh! To celebrate the release of Hunger Games: Catching Fire, here are 17 little-known facts about YA's original novel that became mega-blockbuster.1. Before winning an Oscar and being America's favorite actress, Jennifer Lawrence was fresh from WINTER'S BONE, and was still flying under the radar. When she was approached to star in the Hunger Games, she was offered \$500,000 to play the dystopian teenager. But for Catching Fire, Jen's paycheck skyrocketed to \$10 million, 20 times what she did for the first movie.2. Magic Mike's Alex Pettyfer, along with Taylor Swift's music video boy Lucas Till and Hunter Parrish of the Weeds, were all considered for the role of Peeta.3. One day, as the two star-crossed lovers joked on set, J Law became a bit aggressive and kicked Josh Hutcherson in the head, giving him a concussion... because apparently archery is not his only skill. Picture: Tumblr4. Alexander Ludwig, aka the blonde burley who plays Cato, worked with a Navy Seal who broke his bar in shape for the role. I had to put 40 pounds for the role, he said. It sucks so much. I fought training, sword training. I also worked with a U.S. Navy Seal. I wanted Cato to have a physical presence as much as mental. Picture: Tumblr5. Both Hutcherson and Lawrence were born in Kentucky, a state that, just like District 12, is known for its coal mining and rural poverty. Every time you meet someone who comes from your state at the time, he's an instant bonding agent, Hutcherson told film critic Peter Travers of the connection.6. To play Effie Trinket better dressed than the Capitol, Elizabeth Banks spent 45 minutes every morning before shooting while doing nails. Picture: Tumblr7. But because of her long nails, Banks needed help doing everything, including going to the bathroom.8. J Law and Liam Hemsworth are both natural blondes, but their roles required dark hair so that their natural color was dyed darker. Ironically, Peeta is a blonde, but Josh Hutcherson is naturally a brunette, so her dark hair has been lightened. Picture: Tumblr9. Woody Harrelson is a fantastic human being. He's also a vegan, so in the dinner scenes, he only showed vegetables to eat.10. The Hunger Games is the second time Paula Malcomson has played Jennifer Lawrence's mother on screen. The first time was in Cold Case: A A Dream. (We haven't heard of it.) Picture: Tumblr11. The Hunger Games is the second film (Winter's Bone is the first) in which J Law helps his family survive by capturing and killing squirrels.12 A really amazing name given by fans for Katniss and Peeta is... Is... Mr Peeniss. Picture: Tumblr13. The actor who plays Cato is also a singer. Check out her Liv it Up jam on Youtube.14. Director Gary Ross wanted to make the film in part because his twins are big fans of books. Picture: Tumblr15. The buildings of the famous architect Frank O. Gehry were the inspiration for cornucopia.16. Many of Hollywood's favorite young actors auditioned for the role of Katniss. In particular, Chloe Grace Moretz, Shailene Woodley, Hailee Steinfeld and Emma Roberts.17. Lawrence was reluctant to take on the role of Katniss, knowing the intense limelight that would later shine on his life. Picture: TumblrImage: Lionsgate To Hunger Games fans who have already reread books and/or rechecked movies multiple times while quarantined, the odds are always in our favor today. A Hunger Games prequel film is officially in the works, as announced by lionsgate production studio on Tuesday, April 21. And to make things even better, the film series creative team is already back on board. Francis Lawrence, who directed Catching Fire and both mockingjay films (as well as Lady Gaga's iconic video Bad Romance), will return to direct the new film, which will be an adaptation of the prequel novel written by original Hunger Games author Suzanne Collins. The Ballad of Songbirds and Snakes takes place 64 years before the book's original trilogy, a decade after panem's Civil War, during a period considered the Dark Days. And instead of Katniss, the story will focus on Coriolanus Snow, better known to fans as the tyrannical President Snow, played by Donald Sutherland in the film series. The next novel will follow an 18-year-old Snow as he receives the opportunity to be a mentor for the 10th Annual Hunger Games, one he thinks could transform his family's life, but then recoils once he's assigned to train the female tribute from District 12 (sounds familiar?). As seen in an excerpt from The Ballad of Songbirds and Snakes published by Entertainment Weekly, Snow will be shown in a totally new light: fiery, charming and even ... Heroic? He is a long way from the man he will eventually become, but the growing passion for his mentee shows that at some point he had a heart. Collins will write the treatment for the prequel film, with Michael Arndt, who wrote the screenplay for Catching Fire, ready to handle the script. Nina Jacobson, who produced all the films in the franchise, will also return. No news of the casting has been announced, but since Katniss and her crew wouldn't even be born in the next novel, don't expect appearances from the original cast. Lionsgate has always been the home of Hunger Games I'm happy to come back to them with this new book. Collins said in a statement, according to The Wrap. It is such a pleasure to reunite with Nina, Francis, and Michael to adapt the on screen, and making them share their remarkable talents, once again, with the world of Panem. A release date for the film has not yet been set, but if you can no longer wait to find out what's going on, The Ballad of Songbirds and Snakes will be released on May 19. Start your literary theories right away. Get all the best pop culture and entertainment moments delivered to your inbox. The odds are in favor of Hunger Games fans. The trilogy written by author Suzanne Collins is getting a prequel. Read on to find out what we know about the prequel to Collins' best-selling novels. The 'Hunger Games' prequel will be released in 2020 Although film adaptations of Collins' three books The Hunger Games, Catching Fire and Mockingjay have long since been released - the fourth and final installment premiered in 2015 - Collins didn't finish with his popular series. Hunger Games books and goods for the release of the 2012 film | Michael Hurcomb/Corbis via Getty Images A Hunger Games prequel will be available on May 19, 2020, according to The Hollywood Reporter. What will the Hunger Games prequel be based on? Collins gave some information about the prequel in a statement released on June 17, 2019. We know the prequel will be set 64 years before Katniss Everdeen (Jennifer Lawrence) becomes known as the girl on fire. It will take place during the harvest of the 10th Hunger Games. What Collins wanted to explore in prequel Collins told fans in his statement what he wanted to explore in the prequel. With this book, I wanted to explore the state of nature, who we are and what we perceive is necessary for our survival, he said. He went on to mention the Dark Days as the place where the book will be set. Writer/writer Suzanne Collins arrives at the premiere of Lionsgate's The Hunger Games: Mockingjay – Part 2 at microsoft theater on November 16, 2015, in Los Angeles, California. | Gregg DeGuire/WireImage The reconstruction period 10 years after the war, commonly referred to as the Dark Days - as panem's country struggles to its feet again - provides fertile ground for characters to address these questions and then define their views on humanity, Collins said. A film will probably follow the release of the book Collins is no stranger to his work hitting the big screen. Film adaptations of her work catapulted the acting careers of Jennifer Lawrence, Josh Hutcherson and Liam Hemsworth to A-list status. Lawrence won an Oscar in 2013 (she won an Academy Award for Best Actress for her role in Silver Linings Playbook), has signed lucrative films and endorsement agreements (she's the face of Dior), and continues to show her range in the various acting roles that As for Hutcherson and Hemsworth, both continued to work steadily -- and very successfully -- in Liam Hemsworth, Jennifer Lawrence and Josh Hutcherson attend the world premiere of The Hunger Games: Mockingjay – Part 2 on November 4, 2015 in Berlin, Germany. | Franziska Krug Since Collins' announcement, the Lionsgate Motion Picture Group, which produced the film trilogy, said it will likely work with the author again on a film adaptation of the prequel. As the proud home of the Hunger Games movies, we can hardly wait for Suzanne's next book to be published. We communicated with her during the writing process and look forward to continuing to work closely with her on the film, Said Joe Drake, President of Lionsgate, in a statement on June 17, 2019. Since the prequel is set years before the time of Lawrence, Hemsworth and Hutcherson's characters, it probably won't make an appearance in the new film. And how much money does the movie franchise earn? The Hunger Games franchise earned about \$3 billion at the box office. Update: It's official. Sam Claflin landed the coveted role of Finnick O'Dair. Not to rub it, but we called it that. (Hunger Games Facebook) Whatever you want, okay? Well. R29 is obsessed. When it comes to the Hunger Games, we're generally starving (... for information. Take it?). The books have given readers a modern heroine, and the movies prove that being Jennifer Lawrence's BFF would be great — and now, the upcoming sequels provide plenty of celluloid gossip fodder. We followed the slow revelation of casting choices, since characters like Finnick and Beetee become so crucial later in the books, but before progressing, Hunger Games fans here decided to find a full document of each character and who was chosen to play it, plus some fluent thg intuition. It may be obvious, but movie spoilers - and books - were ahead. Photo: Courtesy of Amazon.com Amazon.com
