## Vipkid starlight quiz answers

moment. Some of the prerequisites, such as the picture shown in the picture, are required for certification. Other certificates can be obtained by any VIPKID teacher, regardless of qualifications and prerequisites. Most certificates can be obtained by reviewing the materials on the level and crossing the quiz. Other certificates require the teacher to submit a demo video. By clicking on a specific certification, you'll be able to see what you need to do. VIPKID certificates at the top of the Certification Center will show a list of different VIPKID certificates. Below I will explain each certification in detail. Main course certificates The main course certificates are the most common VIPKID certificates and classes. The main course class refers to classes WITHOUT special focus (i.e. grammar, curriculum, etc.). If you are a new teacher with VIPKID, I highly recommend getting as many great courses certification as you can. These are the most common classes made on the platform, so the more you have, the higher your booking rates will be. Each main level of courses is different and focuses on unique learning goals. I covered each of the below: PreVIP (Level 1) This is the lowest level vipkid platform and it caters to young students who have no experience with English. With PreVIP Level 1 certification, you will teach students between 3 and 6 years old. The main purpose of the lesson includes an introduction to the basic vocabulary of words and alphabetical recognition. In other words, the student will repeat after you for the most part and you practice letter sounds. There are many pros and cons to getting a PreVIP level 1 certificate. Since Chinese parents like to introduce English to their children at a young age, it is a highly sought after level. Another positive of its PreVIP level 1 certificate is that it's easier to book classes outside peak and peak peak hours. Since students are young, many of them are not in school during the day, which leaves them free to take VIPKID classes. During my first school year, I earned this certification. However, over time, I realized that teaching PreVIP level 1 students made me completely exhausted. Due to their age, you will have to work hard to keep your attention. After a few months of having this certification, I asked VIPKID to remove it. Level 2 Level 2 is the most common level of VIPKID taught on the platform. This certification will greatly benefit from your booking rate. Level 2 focuses on letter sounds, mixing techniques, reading, and more vocabulary recognition. They also learn the correct alternate and verb arrangement and structuring sentences. VIPKID students who take level 2 could possibly be ESL beginners, but their ability to understand and understand new concepts is higher than those using PreVIP level 1 classes. They tend to be a bit older than PreVIP students, ranging from 5 to 8. Level 3 Level 3 caters to students who can read with some mistakes, can understand and answer basic questions, and above all can understand what they read. At this level, teachers will focus on sorting verbs correctly. These students usually range in age from 7 to 12 years, but this may vary depending on their educational background. With 3-level students, you will notice a significant increase in trust and behavior in leadership. Don't get me wrong, most of my Level 2 students can stay focused throughout the lesson, but level 3 students tend to be more serious about their teaching. Level 4 Another step up from level 3 is... Level 4, you guessed it! Level 4 focuses on conjugating verbs, using these verbs in conversation, reading complex stories, and using effective compound sentences. This is my personal favorite level of teach. Level 4 students are usually quite excited to use their English skills and engage in conversation. They usually range in age from 9 to 12. Level 5 From this point, your students need to be quite advanced. Getting involved in a conversation would be easy for them. At level 5, reading skills are free and can accurately answer questions of understanding. Level 5 students are usually aged 9 to 12 at level 6 This level is very similar to level 5. At this level, you work with students who could almost take over the lesson. What I mean by this is that the student should do most of the talking. You would like to ask them detailed questions, words and compound sentences. Level 6 students are usually 10 to 12 years old. Level 7 + During my first two contracts with VIPKID, I didn't even know level 7 existed. Level 7 is the highest level on vipkid platform, and it's the highest proof you can get as a teacher. Keep in mind, earning level 7 certification doesn't mean you've made it up. VIPKID teachers are all different and have unique types of teaching classes. Some teachers prefer to teach older students, others enjoy teaching young people. Level 7 is simply a continuation of Level 6. This level extends beyond reading materials, advanced vocabulary terms, and conversation, but ultimately it doesn't make much of a change from level 6. The student must have control of the conversation and will do most of the talk. These students range in age from 10 to 12 years. Pilot certificates Another certificate that I highly recommend for new VIPKID teachers is a pilot certification. With this certification you will be able to teach pilot classes that are very rich in the VIPKID world. The pilot class caters to students who are not currently signed up with VIPKID. This is how VIPKID sells your business and get new payments to students. As teachers, we receive full payment for study classes (unless the student appears). Not only are they a great way to communicate with new students and possibly add to your list of menstrual, but these classes are extremely easy to teach. Since students have never used VIPKID classes before, they don't know what to expect. If you're upset, the student will never know! Just do your best to create a fun environment and teach the student something new. Easy! Starlight Certification Starlight certification is slightly different from the other lessons taught on vipkid. Starlight lessons help older students understand and learn basic English. These students are beginners who started their ESL journey later than usual. VAE certification VAE certification includes trial level, level 1 and level 2. Students who take these courses range in age from 10 to 15 years. They need additional help with grammar and can also work on reading and writing. Additional certificates for VipKID teachers are available for a plethora of additional certificates. These include grammar lessons, TOEFL lessons, free talk sessions (my favorite), and much more. VIPKIDs often add additional certificates because they create new training materials and lessons. Check back every time you're in the house to see if they've added any that you'd like to earn. Read more: 5 Cute VIPKID Reward System Ideas Wrap-Up: VIPKID Certifications make VIPKID world go 'round. Earn as many certificates as possible can be you get more students and increase your booking rate. On the other hand, certificates can also help you communicate with students that you feel comfortable teaching. Not already registered with VIPKID? I will help you through the process!
