## 2825 led bulb amazon Description: • This T10 wedge LED light bulb is designed to achieve maximum brightness with the smallest size and lowest power. Each T10 LED bulb contains 12 high-performance SMD 2835 LEDs, which perform exceptionally in brightness and agilate efficiency. Emit 6000k of super bright white light in 360 degrees to provide the best visibility and give your car a fresh new look. Instant lights on/off without delay, easy to use. Save energy, low temperature, low power consumption for longer life. •The size of our T10 wedge LED bulbs is comparable to halogen bulbs and fits directly into several bulb size sockets such as: T10, W5W, 194, 168, 175, etc. Easy plug-and-play installation. Canbus error-free, no errors after installation. •Komon use for dome lights, front/rear side marker lights, reading lamps, side door courtesy lights, number plate lights, glove box lights, inner tail lights etc. General use for cars, trucks, motorcycles, scooters, trailers, RVs, boats, Marine, etc. Specifications: LED Type: T10 2835 SMD Luminous Flux LED Chipset: Color Temperature 250LM/PC: Voltage 6000K: Power 12V: 2.4W/PC Item Size: 27\*11.4mm Item Weight: 2g/PC Please note: 1. These LED lights are not compatible with Skoda and Opel, or as Volkswagen vehicle plate lights. 2. These W5W/T10 LED lights may not be compatible with some European vehicles (especially the latest) and CANBUS errors may occur. 3. If the LED bulb does not turn on when inserted into the socket, simply flip it 180 degrees and insert it (reverse the polarity). Package List: <a href="10">10</a> \* T10 LED Bulbs Pictures not available for Colour: Top review Latest top review This list features 4 super very bright pieces T10 wedge 194 168 super white led bulb lights high power 3014 18 SMD led bulbs mainly designed for car license plate car interior map lights, dome lights, interior door lights, interior door lights, reading lights, reading lights, etc. Specification 1) Package: includes 4pc T10 wedge 194 168 LED bulb with 3014-SMD LED chip. 2) Easy Installation: simply plug in & amp; amp; play for most vehicles, if the bulb is not lit, please flip the 180 degree bulb and try installing again. however for some European vehicles such as Audi, MERCEDES-Benz, etc., it may occur error codes or hyper flash (please install decoder or load resistor), up to 50,000 hours. 3) LED chip: 18 pieces of high power 3014 SMD per led bulb. 4) Direct replacement for all T10 Wedge Type 158, 161, 168, 168A, 168NA, 175, 194, 194NA, 2821, 2825, 2827, 147 152 159 184 280 285 447 464 555 558 585 655 656 657 906 912 921 1250 1251 1252 2450 2652 3652, 558, 658, PC168, PC175, PC194, PC195, W5W, W5WB, W5WLL, 124, 160, 161B, 192, 193, 194A, 194A, 194B, 195, 2825L, Warranty PC160, PC161, PC168B, PC194G, PC195NA and W10W., etc. 5: "One Year†guaranteed on the quality of disclaimer manufacturers: We use the Amazon affiliate Product Advertising API to retrieve products from Amazon.com, including: price, content, images, logos, brands, product features, reviews that are trademarks of Amazon.com.
