Quick and easy to use. Take the Bible with you wherever you are. September 22, 2017 Version 1.16 - Fixed issues with chapter and verse mix up- Added new image - Added bible dictionary - Small bug fix I gave Application 5 stars based on its performance before. In the last 6 or so months however, it has become simply display advertising. About 85% of the time, the app won't open: it only shows an ad, and when you try to close it, the entire app closes so you can't read the Bible. So I was forced to stop using it. But if this problem is solved, it is a great biblical application and I would recommend it! I hope it can be improved on. Be blessed! I love using this bible has both English and Amharic, I like answers and questions, I like daily memories verses, I like to move it myself when you read love is a good job 𐌹𐌿𐌶𐌰!!!!!!!!!!!! This bible app worked well with previous iPhone models. It was very difficult for it to work on the iPhone X. I had to remove and reinstall it once already. In doing so, I lost all notes and highlights. It's not working at the moment. Developers fix it please! Also please get rid of the supplies. One of the reasons people buy an app vs. use a free one is not to be bothered by ads. I HOPE YOU LISTEN AND FIX THIS APP. Some, as the developer of this app decided to ignore the repeated request from people who purchased this app to get rid of adds. ADDS CRASH TO THIS APP!!!!!! PLEASE STOP ADDING AND THIS APP WILL WORK OK. IF YOU NEED MORE MONEY, JUST CHARGE MORE. DON'T LET US PENALIZE THOSE WHO PAID FIR THIS APP. THIS APP CRASHED TWICE AND I HAD TO REINSTALL IT TWICE. THIS IS THE THIRD ACCIDENT. IT'S REALLY A SHAME THAT THIS DEVELOPER DECIDED TO BE GREEDY AND IGNORED HIS CUSTOMERS. I HOPE YOU'RE READING THE REVIEWS. BUT YOU DON'T EVEN CARE ABOUT REVIEWS. I added it on April 12, 2019f finally had to reinstall the app. I lost all notes and highlights. All because the application developer has decided to include adds to the application. The developer, Nippt, did not provide Apple with details of its privacy and data handling practices. The developer will need to provide privacy details when submitting the next app update.
