Sarah dessen someone like you pdf download

Halley always followed her best friend Scarlett. But when Scarlett found out that her boyfriend had been killed in a motorcycle accident, and that she was carrying his baby, she was devastated. For the first time ever, Scarlett really needs Halley. Their friendship may bend under the weight, but it will never break - because true friendship is a promise that you will keep forever. Someone like you pdfSomebody like you bookAuthor: Sarah DessenPublisher: Puffin BooksPublish date: May 11th, 2004ISBN-10: 0142401773ISBN-13: 9780142401774Pages: 281 eBook pages can be differentNumbers: EnglishGenres: Young adultReview:Sarah Dessen really shows how extraordinary a best friend can be in her novel Someone Like You. This book will make you think about how friendship can change your life with any condition brought on by you, lovers, parents, drugs, or pregnancy. But how real friends stay all the time. I usually go for fantasy books, the ones where you can ride in the magical rainforest on the shiny black Pegasus. Sarah Dessen really made Halley and Scarlet's lives as real as if I were really there. Everything I've watched, Halley or Scarlet. Halley, who is a lonely child and never defying her parents until her senior year, tells this book. That was the year everything changed. Halley's best friend Scarlet had a boyfriend who died in a motorcycle accident, and he let Scarlett find out she was pregnant with his baby. To make things worse, Halley engages in an unethical relationship where he gets into things like drugs and close to sex. As I read on, the question came to mind whether I would stay with my friends if it all happened to me. But like Halley and Scarlet, my friends mean the world to me. So I have no reluctance to do anything for my best friend, just like Halley would do anything for Scarlet. My English professor suggested this book for me to read because I had already read another book by Sarah Dessen called Keeping the Moon. Both are the same, friendship is the main theme of the whole story. If I were to recommend this book to someone else, it would have to be someone who loves their friends and will do anything for them. This book has some very strong emotions in it, and the conditions many teenagers go through. I think it points to high school girls. Every younger person may not understand how crucial your friends are when they go through certain life circumstances, like the ones Halley and Scarlet faced. Best from this book is that it really tells a deeper story than words in the book. It tells you how terrible things can be, but how a friend can see you through everything and far away. So I'm so happy to have my friends! This is an amazing book for teenagers, but it's also just a very, very well-cooked novel. I loved it from page one to last, and I can't wait to read Sarah Dessen's other books. So read Someone Like You and I'm sure you won't be disappointed! Enjoy! Download someone like you pdf If you want to download someone like you pdf then here is someone like you pdf for you. Free book Someone Like Youby Sarah DessenSynopsis: From the award-winning and New York Times bestseller once and for all the world is a terrible place not to have a best friend. Scarlett's always been the strong one. Halley was always content to follow her. Then Scarlett's boyfriend died, and Scarlett found out she was pregnant. Now Halley needs to find the strength to take the lead and help Scarlett get through this. Because true friendship is a promise you keep forever. * Dessen wrote a powerful, polished story. -School Library Journal, played review sarah dessen is the winner of the Margaret A. Edwards Award for her contributions to YA literature as well as the Romantic Times Career Achievement Award. Books by Sarah Dessen: That SummerSomeone Like YouKeeping the MoonDreamlandThis LullabyThe Truth About Forever Just ListenLock a KeyAlong for the RideWhat Happened to GoodbyeThe Moon and MoreSaint AnythingOnce and for All Check out this and other reviews on my blog books for young adults. here's to happy endings! Current Rating: 4.5 stars Okay, so this is the first Sarah Dessen book that I've read, despite the fact that I've read books for young adults like 15 years old and the allusion to the amount of books that I ruptured at the time is probably enough to go to the moon and back as seventeen times. But yes, this is sarah dessen's very first book, and I absolutely loved it. In fact, I loved it so much, I check it out and other reviews on my blog for young adult books, here's to happy endings! Current Rating: 4.5 stars Okay, so this is the first Sarah Dessen book that I've read, despite the fact that I've read books for young adults like 15 years old and the allusion to the amount of books that I ruptured at the time is probably enough to go to the moon and back as seventeen times. But yes, this is sarah dessen's very first book, and I absolutely loved it. In fact, I loved it so much that I am in the process of collecting and reading all of it Because I think I may have found a new favorite author. The first thing I love about this book is the absolutely beautiful cover. I know some of Sarah Dessen's books have had a few cover makeovers over the years, but I think that's probably my favorite for this book. Colors and simplicity are great touches! The story between the beautiful pages is one of loss, love and friendship, and it is told in such a wonderfully emotional way that it made me stick to this book and read it to the end, and then I found myself desperate to read it again right away. Someone like you is like that comfortable t-shirt you want to wear when you feel down, or a favorite movie that you watch when you want to feel all kinds of warm and fuzzy inside. For me, this book was the equivalent of wrapping up in a blanket on a cold and snowy day with a cup of hot chocolate with extra marshmallows. Halley, who was named after her grandmother, is currently at summer camp (that she hates and was forced there by her mother) when she gets an important phone call late at night. Her best friend Scarlett is calling to ask her to come home because her boyfriend died in a motorcycle accident, and she's not sure she can do it alone. So Halley's calling her mother, who's very unhappy about going on the road to pick her up, and she's heading home to be there for the person she cares about the most. Almost at the end of the summer, Halley comforts Scarlett as much as she can before school starts backing up, the two of them spending the afternoon together and trying as many things as possible, despite the depressing situation. While Scarlett and her boyfriend, Michael, hadn't been together long (just for the summer), Scarlett loved him, and nothing was the same without him, and then Scarlett found out she was pregnant, and things got even more complicated for her. While Scarlett struggles with her mother about what she should do about pregnancy, she tries to keep a piece of Michael that she still has left. Halley informs Scarlett that he'll be there for her no matter what, even if she decides to keep the baby. So when Scarlett's mom set her up for an abortion appointment and Halley calls to say Scarlett needs to be picked up because she didn't, Halley and her new boyfriend Macon quit school and helped her. While Scarlett goes through a pregnancy, misses Michael and tries to figure out what to do for herself and her baby, Halley begins to spend more and more time with Macon, joining him in his scene to go to parties, stay late, and not worry about what anyone thinks. Except they take care of Halley's parents - they don't like Macon from the beginning, and when Halley starts lying to them, he sneaks out and spends more and more time with someone they think is dangerous to her, he tries to Stop. As Halley takes away from the things that were once the center of her life - like Scarlett, and begins to spend more time with Macon, whom she believes she is falling in love with, despite feelings that don't seem to be returned, she has to figure out what's most important to her. This book is such a beautiful story of friendship, love and loss, and the writing is perfect - it flows nicely from one part of the story to the other (the book is told from Halley's point of view and in three parts), and it's so easy to love the characters because they are so deep and have personalities that really come to life. Someone like you even deals with teen pregnancy in a realistic light, and the bond that Scarlett and Halley have (for example, Halley goes to all scarlett classes with her) is one of the most beautiful friendships I've seen in the YA novel yet. I just can't believe I haven't read this gem yet - it has become one of my favorite novels and I honestly loved everything about it. Note: I received a copy of this book in exchange for an honest review. Thank you, Penguin Teen! ... more From award-winning and New York Times bestselling author Once and for AllWorld is a terrible place not to have a best friend. Scarlett's always been the strong one.
