Ozark Trail 3 People Dome Tent Dimensions & Specifications Dimensions: 7' (Length) x 7' (Width) x 42 (Center Height) Capacity: Weight of 3 People: 5.64 lb Tent Design: Domed Ozark Trail 3 People Backpacking Tent Review Space Ozark 3 Person Tent is perfect for family camping trips. It can easily occupy three people at a time without leaving a range of anxiety. The 7'x 7' floor plan provides plenty of space for three people to feel like home. It is fit with room for gear and one queen size air mattress. An additional feature of the dome is the center height of 42 inches. Not only does it provide one extra headroom, but it also allows you to move freely even the tallest ones. This large D-shaped door tent features a wall-mounted organizer with three separate compartments perfect for all the little items you don't want to lose, such as gear lofts with tablet pockets for storing small items, phones, keys and glasses. In addition, there is an e-pot that runs electricity in your tent for all your power needs. In summary, it's not perfect for a family of three looking for an outdoor adventure. Ventilation ventilation is one of the most searched after tent features. This Ozark three-person tent does not fail to impress in it. Keep ventilation in mind when designing this tent. It has a roll-back rain fly designed specifically for additional ventilation. You can easily remove the rain fly of the full mesh screen roof. Do you love the night sky? In addition, not only ventilation but also cleanliness is maintained. Mind. For this purpose, there is an additional feature of mud-madness at the entrance of the tent to prevent dirt and debris. Hence keep the tent clean. The setup tent comes with an instruction manual for easy set-up. The tent can be up and running within 10 minutes for beginners. Therefore, after a few times there is less time. Disassembling it is also quick and easy. It's always best for those on the go. It can be set in time and fuss-free disassembly. Tents made for the season to sail all seasons. The Ozark Trail took the extra step and sewn the flies together to further support the already water-resistant rainfly. So it provides extra protection when pouring. In addition, it can withstand strong winds while keeping a good amount of wind from the dome, while the canopy continues to warn in cold campsites. During hot weather, with the help of removable flies, you can easily get air inside the tent through the mesh. Extreme wear quality and excellent ventilation make its best tearing ideal for all weather conditions. Price Ozark Trail takes care of all denominations while creating its products. So, it did with the quality and price of the Ozark tent. That's exactly what you're looking for because it gives you value for money. There are several variants on the market for small tents. Sleep 3 people in a pinch and 2 people with large rooms. Full top on octagon shape, 3 poles, PE floor, ground rainfly (covering the door). A little heavy for backpacking, but perfect for car camping. Waterproof every year before use. When it was already nearly 10 years old, it stood up to heavy snow for several days. There were some old and new tents, so this was the only one with a heavy politerin floor, so we used it to store firewood and keep it dry during the storm. It took four days of heavy rain and snow before one of the poles finally covered and gave way and was removed again and again. The poles were canted sideways because they broke, but our wood remained dry. Even if I replace the pole, I'm still using it. Still, waterproof it first every year (along with everyone else, both cheap and high dollars). Elitists tell us that these are terrible tents and simply spend \$for the good ones, but when you take care of it like a \$300 thing with proper maintenance, annual waterproofing, and you're \$300, these work well and last for years. 8 years ago© 2020 Wal-Mart Stores Inc© 2020 Wal-Mart Stores Inc.
