The futuristic player a great Arsenal of weapons, you can also drive vehicles and fight mecha. In addition to the single-player campaign, the game features several multiplayer modes with simultaneous participation of 12 players. N.O.V.A. Near Orbit Vanguard Alliance v4.0.5 Apk include action shooter for all fans of three-dimensional shooters. Action takes place in the distant future, when, due to regular natural disasters and the destruction of life in Earth's atmosphere has become impossible, humanity was forced to create orbital space colonies and leave the earth. For a while everything was fine, the colony prospered, to build more satellites, this colonization was alluded to. At the same time, due to the resettlement of the defense was weak and newly arrived judges are interested, chose to take control of the colony in their own hands. In the colony he quickly begins preparing for war, built defensive towers, and decides to go and explore the best designed Kal Wardin infantry to infiltrate behind enemy lines and destroy the main think tank. The really nice main fantastic shooter. Arsenal of weapons in the game is very large, assault rifle, shotgun, sniper rifle, beam guns, 16ths, don't give you a chance to get bored on the battlefield in front of large crowds attacking enemies. Because opponents are different and behave differently, you need to use different combat tactics by having excellent graphics and music with various special impacts make the game's atmosphere on the android unique and addictive. TWTWTH NOVA Near Orbit 3 is an excellent first-person shooter, which is a highly anticipated android modern device owners. Those who broke their smartphones in the first two parts of the trilogy, should remember that humanity is almost completely abandoned from our home planet due to the depletion of energy resources and environmental disasters. Without losing hope of restoring the right conditions for life on earth, humanity has decided not to leave its home planet, and left there for new forces for order and protection from the invasion of foreign nomads. It happens that total protection has not worked, so the planet was still inhabited by strangers. And despite the agreement on maintaining order in times of war broke out. For a long time, the commander of the forces defending the independence of the Earths, so Cal Worden, who in the battle against foreigners. But time doesn't stop, and even commanders resign, flying into the quiet corners of the universe on a vacation. In this game, it turned out that Cal Warden, being honoured pensioner, during the next Journey flew past Earth and old zapelenogol anguish. If he skipped nostalgic feelings, he either just decided to check if the wet powder in the tank, but to lose it failed and he decided to revive old. Already during the landing ship Kel Ward was out of order, which only added to the hatred of strangers and ended his decision to participate in the upcoming battle. You also need to make sure that the former NY commander showed the younger generation how to fight, not cool down in a ditch someone's, filled with their own blood. In this game, you will find a well coordinated job with a team that really does its best to win. You won't see here you are running in different directions bots. Each of the men knows and gets the job done and doesn't get in the way, and sometimes truly rescued from the trap. In this game you will be available for the most different types of weapons, some of which you can borrow free from enemy corpses. The plot and action in the game is so thought out that you have to constantly stir the gray matter to carry out another job. The fight takes place wherever possible to imagine. You will have to free up all the streets, clean the premises, look for enemy snipers, located in a building a few blocks from your place of residence. In this case you can hide behind the different shelters, from the car parked on the road and ending specially erected barriers.
