Filling is very important for any pillow that is very responsible for Cassines and comfort. So it's very wise to use fillings or fabrics or coverings on your boyfriend's pillow, allowing me to share what I used to do in my pillow. The stuff I used to be a boyfriend custom pillow men's full sleeve shirt scissors fabric glue/sewing machine (recommended for better result) fiber filling to fill men's gloves (cotton) cotton iron fabric in the process sheet making boyfriend pillow step #1: start making the face this step to give you the full sense of the same warmth that you are in your boyfriend's arms and he caresses you very sweetly. You should have heard about the face pillow, in the same way, we are going to head/face for our boyfriend's pillow. Print your boyfriend's photo and use iron on the sheet with it. Now cut the pieces by keeping the image on the fabric, you can now use the fabric glue or you can sew the fabric with photos on the edges by leaving a small part on the edge. We have filling fiber filling or cotton or polyester to make it a proper face/head shape. After this use the fabric glue is added to close the small part of where you fill up. Step #2: Making pillows make perfect men's shirts in any color or type; Now use the fabric glue to glue the face/head with the shirt color and leave it for an hour or two. Then you need to sew or connect the edges of the end of the shirt evenly. We have begun filling fiber or cotton in shirts throughout, make little effort or force to add more and more fillings of sleeves to everyone around the shirt. Step #3: Paste the gloves to the sleeve now you need to attach cotton gloves on both sleeves, by filling the gloves with cotton filling or fiber paste filling the edge of the glove with the edge of the sleeve. The caressing without your boyfriend's hand is incomplete, so this is also an important part#4 The cover finally uses cloth glue to connect the place between the buttons on the shirt so that your filling is safe and not coming out in the pressure. Now you can choose any men's shirt to use as a cover which also helps you to clean your pillow easily. Check each attached section carefully so that your pillow is all set to use when the fabric glue gets well watered.
