Combining all that is so cool about Pratchett and Gaiman's writing in a freewheeling tale of the apocalypse, the Antichrist and the disturbingly specific prophecies of a 17th century witch, is a comic fantasy whose reputation has only grown stronger over the years. A major collaboration between two of Britain's greatest authors, Terry Pratchett and Neil Gemain, Good Omens is now a major television series starring Michael Sheen and David Tennant Armageddon going on only once, you know. They don't let you walk again until you get it right. According to Nice and the precise prophecies of Agnes Nutter, the Witch - the world's only fully reliable guide to the future, written in 1655 before it exploded - the world will end on Saturday. Next Saturday, really. Right after tea... People predicted the end of the world almost from the beginning, so it's only natural to be skeptical when a new date is set for Judgment Day. This time, though, the army of good and evil does seem to be massaging. Four bikers of the Apocalypse will be released on the road. But both angels and demons - well, one fast-living demon and a somewhat fussy angel - would well like to see rapture not happen. Oh, and someone seems to be misplaced antichrist...
