Welcome to the over-the-counter Springfield campus, located in the college district at the intersection of Chestnut Expressway and National Avenue. The over-the-counter first campus was established in the spring of 1990, when residents of the area voted to establish a community technical college. It continues to serve as the flagship campus, housing the Chancellor's office and enrolling most students of any over-the-counter location. Our campus has a hard-earned reputation for providing students from Springfield and nearby communities with quality education at a competitive price. We support a mission to promote student learning through workforce training and technical and general education that meets the educational needs of society and its various subjects through our commitment to accessibility and access. Working with local employers, we continue to ensure that our graduates meet the demands of Springfield's growing workforce. These partnerships help our students find jobs after graduation and stimulate the local economy by adding educated workers to our community.
