Message 3001 Response point 3617 DNS Code has died for ages. Message 2259 Response score 1653 No they were patched LONGGGGGGGGGGGGG AGO Message 119 Response score 26 Yes I agree. DNS codes were patched in late 2013 and mid-2014. Maybe if they decide to somehow ignore the cloud servers after all the hotfixes and they somehow come back I would never suggest nor recommend any GTA V Online player to use them to their advantage. Advantage.
