Click here to get PDF books, audiobooks and movies written by Mike Griffiths, PMI Agile Certified Practitioner and original member of the PMI-ACP® Steering Committee, PMI-ACP® Exam Prep, Premier Edition is specifically written for people planning to sit for the PMI-ACP® exam. The features of this worldwide best-selling resource include the following: – Practice exam questions – over 100 throughout the book.– Dozens of visual effects and graphics for concept explanation.– Identifying the 'importance of exams' for each agile subject.– A focus on real agile project problems.– Exclusive exercises and tricks in the trade®. I am Mike Griffiths, an independent writer, project manager, trainer and consultant based in Canmore, Alberta. I moved to Canada in 2000 from England to be near the Rocky Mountains where I like hiking, mountain biking and snowboarding. In 1994 I was very lucky to be involved in the creation of the agile method DSDM and have used agile methods including FDD, Scrum and XP for the past 23 years. I served on the board of the Agile Alliance and the board of the Agile Project Leadership Network (APLN). I founded the Calgary chapter of APLN in 2006.In addition to agile methods I am interested and active in traditional project management. I have PRINCE2 and PMP certifications, is a contributor to PMBOK v3 - v7 Guides. I was co-author of the Software Extension to the PMBOK Guide and chair of the author group for the Agile Practice Guide. I teach management and agile and often present at agile and project management conferences. I was part of the steering committee to create PMI Agile Certified Practitioner (PMI-ACP) credentials and have published two books for people studying to take the exam. These the book PMI-ACP Exam Prep and PMI-ACP workbook, both available from Amazon or publisher RMCLS. I am a faculty member at the University of Calgary where I teach as part of the M.Sc. Software Engineering program. I am also a regular contributor to project management and agile publications, including the Cutter Consortium, Agile Journal, and ProjectManagement.com.I is engaged in my local PMI chapter and is very lucky to have been recognized with the following awards:2005 - Winner - PMI-SAC Award - Distinguished Contribution by an Individual,2007 - Winner - PMI-SAC Award - Best Project Management Literature,2010 - Winner - PMI-SAC Award - Project of the Year,2013 - IEEE Computer Society - Outstanding Contribution Award2014 - PMI-SAC FellowTHE PMI and Agile events I attend often vary significantly in their philosophy, but instead of feeling torn, I think they are both valid in the right context. But for the software development projects I've been working on over the past 20+ years, the context has seemed to fit agile methods or a hybrid approach more often than pure traditional methods. In this blog, I would like to share my ideas about leadership and agile project management, as well as engage in conversations with readers. I hope you find this site interesting, and as it grows, a useful resource for management and agile project management information.
