## Ed rosenthal marijuana grower's handbook pdf

This is a really informative book and there is a lot of useful information in it, but there seems to be a lot more information about outdoor farming. It would have been nice if there was a quick guide section that would have told you temp, moisture, ppm nutrients, CO2 etc... for different phases of growth. Also, they would keep repeating the same things in different parts of the book and it seemed like they were doing it because people were scanning around or because they needed a little fill. Stock Image On This Item: Fast American Archives, 2010. Soft. Condition: Good. Special. It's a good condition. It involves less shelf carrying, two very small scratches on the spine, a two-inch crease on the front cover and two two-inch folds on the back cover. All in all a clean and well-tied specimen. Full-color photos during clarify instructions and show stunning results possible with Ed's growing tips. The Manual for Marijuana Growers is the official course book at Oaksterdam University Start your review of the Marijuana Grower's Handbook: Your Complete Guide to Medical and Personal Marijuana Cultivation The marijuana grower's manual was packed with information. Beautiful photos supported the text and helped me understand what Rosenthal explains. I enjoyed reading it and inevitably spent more time with it than I intended every time I picked it up. The marijuana grower's manual was full of information. Beautiful photos supported the text and helped me understand what Rosenthal explains. I enjoyed reading it and inevitably spent more time with it than I intended every time I picked it up. ... I would prefer to be in place to use all this knowledge such an amazing book! It's helped so much and I thank you, Mr. Rosenthal, you're a great inspiration to me. I'd like to meet you one day if you're ever in Australia again such an amazing book! It's helped so much and I thank you, Mr. Rosenthal, you're a great inspiration to me. I'd like to meet you one day if you're ever in Australia again... More A great book with tons of information, it would be great to own this book. I borrowed from the library a few times, but I didn't just read the whole book. A great book with tons of information, it would be great to own this book. I borrowed from the library a few times, but I didn't just read the whole book. ... more 4starsContains useful information, not extremely technical, does not require a Doctorate for proper understanding. Since I already have one, that's fine. 4starsContains useful information, not extremely technical, does not require a Doctorate for proper understanding. Since I already have it, it's okay... More Fun book can't wait to try out what I learned from it Fun book can't wait to try out what I learned from it ... More Despite its cover and brilliant images of cannabis, this book is packed with psychopharmacology, ethnobotics, neuroscience, horticulture, American anthropology and even political science! You don't need to grow cannabis to learn \_lot\_ from this book! Don't let the front page fool you... That said, now that I've finished it, I can't say I'm impressed with this book. In addition to psychopharmaceutical and anthropobotanical academic information contained in Chapters 1-5; I found despite the cover and great images of cannabis, this book is packed with psychopharmacology, ethnobotics, neuroscience, horticulture, American anthropology and even political science! You don't need to grow cannabis to learn \_lot\_ from this book! Don't let the front page fool you... That said, now that I've finished it, I don't. I'm impressed with this book. In addition to psychopharmaceutical and anthropobotanical academic information contained in Chapters 1-5; I found the rest of this book scrap. Nice pictures, but that's it. You want to grow come cannabis for grandma's glaucoma? I recommend old-fashioned gardening. These are just plant people, not some crazy science. Lol! Although Chapters 1-5, IMHO, probably needs to teach children about 8. SERIOUSLY PEOPLE. Cannabis History is, like it or not, inextricably woven into the civil rights struggle, try to deny it, and you with NEVER GET THE FULL PICTURE. &#3. despite my negative review; ALL THE PROCEEDS FROM THIS BOOK GO TO GOOD CAUSES, so there's no regrets there! :) &#3 ... More Manual of Marijuana Growers: Your Complete Guide to Medical and Personal Marijuana Cultivation by Ed Rosenthal (Fast American Publishing 2010) (633.7) is a thorough and well-written guide for a happy plantation owner or wannabe farmer. My score: 8/10, finished 11/20/12. ... more Knowledge! Full of great information. This will be a resource guide that you will refer to over and over again. I recommend this book for beginner and professional.. You just can't go wrong Knowledge! Full of great information. This will be a resource guide that you will refer to over and over again. I recommend this book for beginner and professional.. You just can't go wrong ... More So much informationThis book covers everything that can read an entire book and always come back and read. I must say this book is a real guide, I must say. Genius! Gave 5 Stars not only books, but, as well as for the website and all additional, additional information found there! Genius! Load logging
