Zombie games often focus on people's survival before a disaster, requiring the player to flee, build a base, or even find and kill healthy zombies. But have you ever wondered whether game publishers are too unfair to zombies? To answer that question, publisher Mobigame S.A.R.L. released The Zombie Tsunami. In this game, you have to learn to think like zombies (in they are not able to think). RuleIf you play the game, you will count on an army of zombies to attack big cities around the world. You start the game with only one zombie, then try to eat meat and turn as many people into zombies as possible. If you have enough money, you can upgrade to start with two, three or a maximum of five zombies on a more affordable start. Like Subway Surfers, Zombie Tsunami is an endless-runner game, which means you run to the end of the game. All you have to do is control zombies to jump to avoid obstacles or jump through a deep hole by touching everywhere on the screen. It sounds simple, but the game requires a lot of skill and reflexes for the player when designing a lot of bombs and holes to wait until you lose. With only one mistake, you can directly kill the entire army of zombies in order to build. How to get more zombiesPeople screaming on the road are the easiest targets.
