Persona 5 moon 60

See code on GitHub Persona - Proficiency - Fixed See code on GitHub Persona - Proficiency - Arcana Moon Set (月 , Tsuki)? is Arcana recurring in the Persona series. The overall picture[edit | edit source] Described as two dogs how on the moon around the pond with a galah shrimp in it, with two towers in the background, the Moon Arcana is associated with creativity, inspiration, dreams, madness, illusions, fear, fantasy, subconscious and trickery. In tarot readings, it can also represent those interested in the world around it, gaining the ability to feel things without being told about them or without anyone knowing (meaning that some identify this Arcana with psychedeet). Personas of the Moon Arcana are usually mythical figures directly associated with the moon, are characters interested in psikik, evil characters whose stories involve betrayals or figures related to illusions. They tend to align physical skills while having average Magic statistics. The characters of the moon Arcana are often equally psikik-attuned, but the more commonly trend is their own fear and blame on others (i.e. protagonists). They often tend to face problems to accept themselves for who they are and, out of fear of it, try to fit in with the ideal person. And like Arcana, there is a hidden depth to why they act in their behavior. Appearance[edit | source edit] Personas list[edit | source edit] Megami Ibanroku Persona[edit | edit source] Protagonists can guarantee the combined misfortune that results in the Persona Arcana Moon by starting from a hard reset (as in, not to mention mid-game and loading deposits or selecting Back to Header) and performing a White Merge after taking exactly 1,194 steps in an area where no enemy will attack , like Mikage Sun Mall. Persona Level PSP Wahyu Lilim Remy 21 Succubus * Succubus 53 Persona 2[edit | edit source] Innocent sin[edit source] Arcana Moon represented by Maya Amano as well as her original Persona, Maia. If certain prerequisites are met, Maya can get both Maia Prime and Arcana's moon muktamad Persona, Artemis. The eternal punishment [edit | edit source] Maya Amano once again represents the Moon of Arcana and her original Persona was Maia, although little changed. If certain needs are met, Maya can both transmogrify Maia into Maia Prime, and get arcana moon persona, Artemis. Persona 3[edit | edit source] Moon Arcana's Social Link is represented by Nozomi Suemitsu, whose protagonist can start after hearing the Gourmet King's rumours for Tomochika Kenji. In addition, the protagonist must first raise the level of his charms to the level of before Nozomi takes the protagonist's notice. The protagonist must answer 3 questions of Nozomi correctly and give him Rancid Rancid Or Odd Morsel when he accepts his challenge to bring Nozomi something he's never eaten before. Through the protagonist's interaction with Nozomi, he helps Nozomi in understanding his shrinking side and his true spirit and talent. After finishing Social Relations, Nozomi will give the protagonist a coupon he obtained at Hakagure Bowl Ramen Restaurant, revealing the form of Moon Arcana's muktamad, Sandalphon, the apostle of heaven. FES[edit | edit source] The moon arcana remains the same as Persona 3, however, the exclusive Persona, Baal Zebul (human avatar of Beelzebub), has been augmented in the Repertoire of Moon Arcana. Transfer[edit | edit source] If the female protagonist's page is taken, Moon Arcana will be represented by Shinjiro Aragaki. Making this social connection before the October Full Event will change shinjiro's story and fate a bit. Persona 4[edit | edit source] Arcana Moon Social Link is represented by Ai Ebihara, a Yasogami High School student in Persona 4. Social Linking can be initiated as soon as the protagonist attends arcana's Social Link strength to a sufficient level. In addition, the courage of the protagonist must reach at least Lv. 3 to initiate Social Linkage. In the events of Moon Arcana's Social Link, the protagonist helps Ai to confess his devastation to Kou Ichijo or Daisuke Nagase (depending on which team the protagonist chooses for arcana's Social Linkage of Power) and so helps Ai understand his feelings that are in conflict with his true self. Upon completion of Social Link, Ai will give the protagonist his compact mirror, tying the muktamad form of Moon Arcana, Sandalphon, Angel of Prayer. Persona 4 Arena Ultimax[edit source] Arcana Moon is represented by Sho Minazuki's version using Tsukiyomi Persona. Persona Q: Shadow labyrinth[edit source] Persona 5[edit | source edit] Moon Arcana is represented by Confidant with Yuuki Mishima, who occupies the 6th place May onwards as the protagonist completes the heist request from his website. In the events of The Moon Configuration, the protagonist helps Mishima face his desire to find a new identity for himself from the sifar status he has been bullied into believing in. This configuration unlocks exp bonuses and EXP profits for maintained fighters as it is ranked. Completing the Konfidurasi Arcana Bulan will also purify the shape of arcana muktamad, Sandalphon. Royal[edit | edit source] In the Royal, the selection of Moon Arcana was changed slightly because Nue's Persona was transferred to The Arcana of Death, and Byakhee was added. The Moon Arcade is the eighteenth tarot arcana (XVIII) and is your fifth configuration unlocking automatically, shortly after beating the first Palace. The configuration of the Moon's social links is Yuuki Mishima. The Moon Arcade represents creativity, dreams, inspiration, and subconsciousness. Through your journey, the moon arcana position will provide Phantom Thieves with some passive support abilities that help keep everyone at the same level. The progress of the Moon configuration is done through completing the Request before spending time with Mishima. You automatically rank almost every time you spend time with Mishima, so the choices you make in a conversation don't affect results. Therefore, you also don't have to have the Persona arcana Moon because of that. Mishima is available at night, first in Shibuya, then in Shinjuku, and then in Akihabara. He is not available when it rains but is usually available otherwise. However it's as if depending on the Phantom Thief completing the request he sent you, so make sure you get what he's done. If you haven't finished ranked Mishima by mid-November, you'll need to finish the Seventh Palace able to rank again. The choice of dialogue in this social link has an impact on how efficient it lasts. All of the dialogue options below show the answers that give points and how many points they provide when you have the same persona arcana as you. If you don't have a Persona of the same arcana, minus a point to get the amount of what you get from each answer in most cases.
