If you want to add a little pizza to your regular lampshades, we have a few easy tips for decorating lamp shades.1.) The ribbon is the best friend of a craftsman or decorator. Use glue or double-sided tape to arrange the tape in any way you want. Vertical or horizontal stripes are always a nice option. If you want to keep it simple and refined, add a piece of tape around the bottom of the shade. To give it a finished look with only a little more interest, add a button corresponding to the seam.2.) Along the same lines as the ribbon is a molded fringe. Unlike the tape, you won't want to place it anywhere else except at the bottom and/or top of the shade (only the bottom looks best). Similar to the tape can be attached with glue or double-sided tape.3.) One of the best ways to decorate shades of the lamp is with fabric. Find a beautiful piece that the lamp and the room in which it is and then cover the exterior or interior.<br>4.) If you feel ambitious, you can use threads to on a woven shade. Stych of initials, geometric designs or any other form you want.5.) Try to use fabric paint (available in most craft stores) to add color and life to fabric shades. The sky is the limit when it comes to design. Paint all one color, try geometric design, paint names or initials, or any other picture you can think of. It can also be a fun project for children who want to customize their rooms (works of art do not always have to go to the refrigerator or walls.6.) Fill a spray bottle with paint from fabric and spray shade. For a degreed look at the bottom of the shade, empty part of the bottle and add water. Spray the adjacent part of the shadow over the dark part. Repeat the process and spray upwards on the shade until the desired appearance is achieved. You can also do the opposite by making the darkest and brightest of the top of the shadow as you move down. Be sure to do this in a place where you will not accidentally spray anything else. Once they're painted, they'll be painted. Painted.
