No grammatic error 2. Correct 3 sentence structures. No 4 dictionary errors. No change to the meaning of the phrase is intended too, it is important to remember that we did not state that the correct answer is still the most consisting one. While this often is the case, it doesn't always hold true. You can find that you need to resist the temptation to always choose the shortest answer. If you've read the underlined text, you already know what it says. Keep in mind, however, that we don't say ignore An's choice entirely. It will correctly be a fifth of the time. That said, we recommend resisting the temptation to generalize these questions or to assume that there is always a re-written choice that is better than the underlined segment presented to the question. Look out for multiple errors. A sentence might have more than one error. A common array that test-takes the fall is to get an error and then quickly select the response that corrects this error, without considering whether there are other errors in the sentence that an alternative response might also be addressed. The correct response must correct all the errors in the underlined text. Elimination staff process wherever possible. The easiest way to use elimination process to phrase editing questions is to simply eliminate any choice answers that are grammatically incorrect. You can also eliminate any choice that changes the meaning of the phrase intended. If you still aren't sure about how to answer a question even after narrow your choice down to two, you'll fare better by choosing the most consequences of the remaining choices, given that it doesn't use the passive voice. Don't worry about spelling or capitalization mistakes. The test writeter does not test for these 2 errors. When in doubt, seek subtle differences among the different choices answers. Examine how different choice responses from each other can be a good way to determine what error might be present in the underlined text. This technique can help you fight the trend for it carefully for your meaning graphene errors. Read the whole sentence a second time, set your selected response to choice. We found this to be a very powerful tip for dealing with phrase editing questions. It can keep you from making mistake negligence that would hurt your GMAT score. Trust in your ears. If you become stuck, 'say' the choices to yourself and then choose the passage that sounds best in your ears.
