Delphi murders cause of death

Eerie photos show two teenagers being ordered to walk down by their killers before he killed them in rural Indiana, the site of last March's death by Abby Williams, 13, and German Freedom, 14, who were killed in a suicide note. After they save the killer's cool commands to go down the hill. The chief homicide detective, who had heard all the tapes from the audio piece, explained that the killer had the voice of the devil passing through him. German Libby recorded the killer's orders after she placed her phone with a video camera rolling in her pocket as he cornered them on a bridge. Indiana local LH, who did not want to be identified, told news.com.au that she found the spot where the girl found and filmed their killer so creepy, she used a gun whenever she visited. Having visited the place several times, describing in detail the spot where the schoolgirl was kidnapped on February 13, 2017. It is the Monon High Bridge, a hiking trail near the small Indiana town of Delphi, 100km away. Northwest of Indianapolis. When you walk down the path and approach the bridge, the path turns and you can see it 'approaching' you slowly. I don't know if that's just me or anything, but that bridge and walk up to the bridge around the bend feel wicked. LH reveals a high bridge and betrayal more than it sees, with some posts called relationships, missing or rotten, and hills where girls are forced down to be steeper, and once on it people will feel it. Stuck with no way out. The girl shouldn't be on that bridge, LH, one thing we know about that killer, it's quite clear that the man is not afraid of heights. No one really said (but) I don't know what to say. He's not going to walk on a bridge like that, or he's walking that bridge many times. The teenager was found dead down a hill. The next day, with their bodies bearing a strange ... signature at the killing site across Deer Creek in the woods, 2 km out of the city. This bridge is much larger than what was seen in the LH photos, where fear of height meant at first she crawled across. It could be ten feet (3 meters) across the gap between the gaps, not enough space for your feet to slide through unless you turn sideways. My feet fell several times and part of the board went down the creek. Down you see him in that photo (a picture taken by Libby German on her phone) is particularly muddy and I'm scared there. That's not far from the end. A video taken by a local grandfather walking along the Monon High Bridge recorded just under four months before the murder showed how precious it was to walk on the structure. A murdered girl who joined the Delphi community. The school where they played saxophone and volleyball together had visited the bridge before the day they died. The Monon High Bridge Trail attracts hunters, fishermen, campers and children. It was an incredibly warm day and best friends were left at 1.35pm for their walk, which started at the LH tell-news.com.au since it was blocked by a red metal door bent at 2.09pm Libby used her mobile phone to upload a picture of Abby walking on the famous bridge to Snapchat. The Girls was gathered by her father, Libby Mike Patty, her legal guardian in the time car park. By 5:15 p.m., the girl's family searched them, and by 6pm, most of the city, which has a population of about 3,000, had joined police but no girls were found back the next day and around midday the girl's body was found about 15 metres north of Deer Creek on the 12-hectare property of 77-year-old Ron Logan, which is not considered a suspect. A detective in an unsolved murder case has revealed the girl's killer. Strange ... the signature at the killing site. It has not been revealed if these strange signatures were part of the murder method or made after the LH news.com.au death that the condition of the bridge has deteriorated severely in the three and a half years since the murder. Every time I go there, it gets worse, she says, and you can grab a piece of wood and pull it out of the tie. Where Libby stood when she filmed the video full of little brushes. If they're standing there right now, there's a leaf covering the killer's view. There are mosses growing at some point, where the relationship is a sponge, likely to cause decay. There are vines growing in another area (when) ... I walked to the bridge, everything was so quiet and calm that it was almost as if the bridge was saying 'I dare you' while trying to hide the fact that the girl died there. People say there's a man behind a tree in Abby's picture in the woods. It is impossible to stand in that area, so we knew it was wrong. They also said there was a man coming into the bridge, which you can see in the photo at the end, that's not the guy, that's the barricade that was removed and is now standing in the woods. Speculation also arose that Indiana state police superintendent Doug Carter, who was responsible for the case, commented. The voice of the devil of the killer has a hidden meaning. It has been suggested this means that the crime scene has signs of satanic rituals, but there is no evidence or any indication by police of how the girl was murdered. The site of the body is about 800 meters from the height. Where Libby took a picture of Abby the other afternoon. How the girls were murdered has not been released, as Supt Carter said, because only the killer knew. In Libby's men, police found her mobile phone and where they found a video of a man on a high bridge. Monon, he is a white man with his hands in his pockets while walking. He was wearing jeans, a dark blue jacket and possibly a hat. He was walking fast across the plank, the railway bridge, which was not meant to be a success, as it was separated by a large gap towards the girl. It's amazing that we have videos, we have stills, we have audio and we don't know who this person is. Incredible footage and audio captured by Libby as the girl was ambushed and murdered has been broadcast around the world and sparked thousands of tips, but led to no arrests. Both Carter, a local sheriff, other law enforcement officials, and Delphi's own citizen believe that due to the location of the kidnapping and murder of the girl, the killer is a villager or former with close knowledge of the site. One former investigator in the case told the Down the Hill podcast (DTH) that the killer - who police now believe is the one Libby captured on her phone - left plenty of evidence at the scene, police man suspect Libby German, 14, and Abby Williams, 13, were filmed by Libby on her phone (above) Picture: Indiana State Police. Source: Supplied Apparently someone with withholding information. Carol County Sheriff Tobe Lesenby told the meeting. It could be somewhere along the way that someone is threatening to reveal the identity of the killer. Police released two very different sketches of the killer's face, one shortly after the murder and another based on interviews with people who may have seen the perpetrator near the high bridge. Monon on the day of the murder. In the second sketch, the man is much younger and has full hair, head instead of a hat on his head. Supt Carter said the killer's age was between 18 and 40 years old, and both Carter and the sheriff believe the killer was related to Delphi. Whether it's a person who's lived in our community and knows the area where the girl is located, or maybe still in our community. Unless someone somehow studies that [path]. In great depth, they will not know specifically where something is. Another theory is that the killer worked at a nearby meat fair, which is why he was so rough - wearing a hoodie under his blue jacket - on such a warm day. That one person has much knowledge of the offending area and has been planning it for some time. It said the killer sought to grow up those treks or spent a lot of time outdoors and saw the bridge as a perfect trap, anyone who visited the bridge across the stream, the rest of the bridge was obscured on all sides by the forest, creating privacy for anyone who committed a crime. Once you are there, you can only get to the point where the bridge ends and the private property begins. DTH guess the man rehearses the path plan and is ready to act whenever the right victim appears. He passed the girl on the bridge, then turned around, and when the girl noticed that he was walking back in their direction, Libby began recording. He gained control of them with a knife or gun, he forced them to turn north. - And down the hill. They walked through the wood and across the stream until they reached the point where they were found and presumably murdered there. Supt Carter said the Monon High Bridge was considered by some people in Delphi as the LH Halloween ground news.com.au she spent an hour crossing monon high bridge and when she did so she wouldn't jump in the same way, crawling n her knees, so I went down at the end with just me to the other side of the bridge. The hills are still steep and my shoes slide down in the mud. We have a lot of clay here in Indiana, so it's like standing on a butter smoothie. I don't want to be next to the girls because there's no intrusion sign on the right side of the street, and this side looks steeper than the one I went down. It was very hard to get through the grass and the terrain to come back, and then I realized I had to cross the creek, it was a horrible feeling of being trapped without a way out of there. I can only imagine how women feel and they have a killer there. candace.sutton@news.com.au was there candace.sutton@news.com.au
