So I didn't come across the smartphone game with augmented reality technology AREAL capable of creating hype like Pokemon GO. This game Pokemon seems to be the answer to fans who actually want to exist in the real world, roughly what kind of monsters move into their neighborhood. Pokemon Crimson and Pokemon Unknown Alpha Omega Bay for those who follow Pokemon game titles progressing since red or Pokemon Sky-blue, PokemonGo is clearly the kind of entity that serves fans who are very fun to play through mobile devices. This game brings different varieties of Pokemon exit from the first period, which I think is more familiar in the eyes of fans like Pikachu, Bulbasaur, Squirtle and others. Pokemon GO Apk is the first technology (or Kanto Pokedex, also known as Pokemon) enemy Collection I think this is a very convenient choice because almost all options are very popular. While it is also the Ingress AR game developed by Niantic Labs, Pokemoncler invites go to the exit floor To explore the surroundings to be able to actively move and hunt a variety of Pokemon exit floors there. Every monster you find is also random in a number of places, so sometimes unpredictable event. This type of game provides the nearby Pokemon option to see what kind of monster around it. Face a monster, this game provides a kind of Pokeball throwing mini-game that uses AR camera interaction. How to play Pokemon go is quite easy, catching pokemon, all you have to do is determine its power and hold your pokeball finger to launch towards Pokemon. If successful, these monsters will be listed in Pokedex and will sell the Transfer feature (to get items enhancement Candy), make them as powerful as the level, or turn pokemon (evolution) into a new genre. Pokemon HEAD OUT feels that the game has really started on five levels of character. Below you can choose three teams that represent units of different colors: yellowy for Instinct, unknown to teams Mystic, and red like canon. All three had recently been representing PVP gaming mechanics, an effort to combat scattered Pokefriday Gym locations across the country. Inviting pokemon from a Pokemon Gym Mastering, the package is to receive IAP money from Pokecoins that can be used to get a variety of items ranging from pokeball, upgrade bag, machine incubator and others. Pokemon GO APK's best features for Android: Remote and large search for Pokemon and itemsCatching, incubation, modifying and offering free-to-play and in-game purchases to run more Health club battles and defend GymThis software.
