Air supply greatest hits vinyl

The greatest hits is the compilation hits the top of the pop rock duo Air Show. An unreleased track was released, making Love of Absolutely Nothing as a single and the final top 10 hit groups became. Style: Pop Rock Vinyl: N M Cover: EX (Slight Angle Ding.) Label: Arista Records - AL 8 8024 Country: US Tracklist: A1 Lost in Love 3:51 A2 Until Nights Are The Best 3:57 A3 One That You Love 4:17 A4 Every Woman in the World 3:29 A5 Chances 3:29 A5 Chances 3:51 :32 B1 Make Love out of nothing at all 5:15 B2 all of Love 4:1 B3 Here I 3:46 B4 Sweet Dreams 5:19 All our prices regularly used vinyl passes and 10 minutes Ultra Sonic Cleaning (best cleaning) are then visually graded under bright light, with a partial play score when considered nice. We encourage you to view all photos and read our comments on the circumstances, as we find these to be more useful than the standard grade. Sometimes we will use a grade set (i.e. VG/VG+) either vinyl or cover if the condition is limiting and difficult to stick in one category. Note: We don't grade or mention the original case of the printed interior sleeves (if the record is theirs) although we will often picture them if included. If this is a concern for you you can contact us and ask us. Mint: Vinyl - only due to sealed records, or records that we personally acquired, opened but did not play. Of course since the record has been sealed we cannot guarantee that there are no urgent defects or minor falsification, and since all the sealed records we sell outside the printing, we can only return or exchange sealed records that have been opened. Cover - still sealed. Near Mint (NM): Vinyl - inexpensive record looks almost flawless. Cover - light wear storage may be typical. Excellent (EX): Vinyl - it may be one or two light bawl marks but should only play as well as the NM record. Cover - has some very minor cosmetic issues, such as light wrinkle, wearing a light ring, nothing very noticeable. Very good plus (VG+): Vinyl - will look played, may have some brawls and light surface marks/scratches. Light surface noise may be such as pops, clicks and clicks but they should be transverse, inconsistent and non-overwhelming. It may have a light warping but should not affect the gameplay. Cover - will wear noticeable like wearing a ring, splitting the seam, writing on the cover, wrinkles, etc. The items can be a couple (not all) and they shouldn't be major. Very good (VG): vinyl - it will look very played, a lot of marks, quarrels, scratches (maybe deep), and play with perhaps noticeable noise until the background is still fixed but still listen. It may be counterfeited but should not affect the gameplay. Cover - will have a couple of cosmetic issues wear a ring, seam split, write on the cover, wrinkles, etc., and will be very pronounced. Good (G): Vinyl - you will play but you will have a lot of issues and a lot of loud Noise. We rarely list a record in this case. Cover - The cover is damaged to the point that it is unusable to house a record. All layers are divided, the panels are moldy, the main writing is all over, etc. The only time we'll include a cover record in this format is if it's rare or the record is in great shape. ship orders within two working days. Rest assured, unlike many sellers and even large companies, we know how to ship vinyl (and LaserDiscs) properly! We used high quality messages, two to three cardboard and sednsers and if the album that is purchased is shipped out of the cover to prevent damage to layers in transit. When it comes to charging LaserDiscs we don't always ship off the cover as in cross seam wear is not as common. If you want your disks to be shipped out of the cover feel free to notice it when you go out in the message box. Multiple disks = multiple logs. Four 7 45 = 1 LP special note for 78: Shellac records are more fragile and require additional packaging, and because of this all 78 records will be counted for shipping account purposes. Domestic Shipping (USA): Media Mail: \$5.50 fixed price regardless of the number of records (LaserDiscs) you buy! Priority mail: Prices vary depending on the total weight of your order, and will be calculated when you check out unless your order contains more than 6 laserDiscs. International Shipping: For our international customers the following countries and price preparation. If you do not see your country or would like to quote on another method of shipping please contact us for a shipping quote. Multiple record sets are counted as multiple records. Any request over 5 records require you to contact us for the shipping price. Prices include insurance. Customs duties and taxes: Note that the buyer is responsible for any additional customs duties or taxes that you may have incurred. For customs purposes we only value the packages in the purchase amount, and we will not value them less. All international orders are insured to protect against damage or loss and we must declare the same value to customs. We also will not mark the items as gifts, this is against the law and punishes both buyer and seller. You know your country's laws, fees/tax amounts if you are not willing to pay them do not place an order. We will charge a restocking fee of up to 25% of the total order, plus any other costs collected by us in the event that your order is returned due to the refusal to pay any required fees from your country. Note: We can no longer ship to the UK because of the Brexit regulations that require us to register and collect VAT. We don't have the ability to afford this and won't ship to the UK until the country decides to collect their taxes. We also do not ship to Russia or China.
