1 Access 2 First-time users are strongly encouraged to review the TABE tutorial to ensure valid scores. Access it from the Help link. 3 When you're ready to start, click Schedule test. 4 Select a test from the Test group drop-down menu. (Note that you can assign a lesson to students.) 5 Click the circle next to the test or textbook to select the test. 6 Test administration site - Auto locator Auto locator automatically assigns the correct level of difficulty to all assigned secondary survey or full battery tests. 6 6 7 Scroll down to change the test options. 8 For details about the student test access codes you need, see help in the user guide. The access code for this test is BEIGE45322. 9 After making the changes, please click Next to continue. 10 Click Next to scroll down to Options to select validation settings: Name the test session; specify start/end dates, select a time zone, and specify a check location. 11 Click to add students. 12 Select your organization (which shows how many students you have signed up for) and click OK. 13 Now click the Add students button to assign the test to specific students. 14 My school name is Jerry McCanna Demo, and it has 23 registered students. 15 Select Include all students, or select the check box next to the names of the specific students who should perform this test. 16 After you have added the students, click OK. 17 Next, assign who will buy the test. 18 Print a test session document that contains student login information. 19 20 Click Finish to confirm that this test should be assigned. 21 on machines that students will use to perform the test. If you haven't already done so, you'll need to install testing software on machines that students will use to perform the test. 22 Now you can view or edit the test session you just assigned. 23 When a student is ready to try, s/he will have to click on the McGraw-Hill Online Assessment icon. No other program can be started. 24 Student experience Double click on the red icon on the desktop Student Logon page Double click on the red icon on the desktop Student reaches the trial session by double-clicking the Online Rating icon on the computer/workstation. The test module can only be accessed using the logon, password, and test access code. Access code should not be given to students as long as students sit at the computer of the test site and students are ready to join. The student's login name and password are presented on the student's Individual Pilot Ticket and on the printout of the test proctor. Test proctor will provide a test access code for the test taker. The test access code is available on the Summary sheet printout and is created during the validation scheduling process. By Test Proctor 24 24 25 TABE Session Welcome Page Student Test Environment Test Engine automatically sizes the user screen. The user's desktop content is locked down when the test content is provided. The unsafe system must be tested. The files published on the CTB website are protected by PPP™ encryption technology. The CTB complies with the Children's Privacy Protection Act (COPPA) on the delivery and protection of student data collected or delivered online. Example 26 Math question Explore back and forth through tests using the Go On or Go Back buttons. Navigate to any test element using the question numbers shown in the lower part of the test interface. Example 27 Reading Question 28 Completing the TABE Test Student clicking Yes, I finished completing the test session Test automatically completes if the test time expires After the end of the test, the scores are calculated by reporting 29 reports of student test results 29 29 30 Improved reports Turnleaf provide powerful filtering capabilities. Report filters Enhanced Turnleaf reports provide powerful filtering capabilities. You can now run reports based on various demographics (test date, test name, location) and student accommodation for easy filtering of data. Improved Turnleaf reports provide powerful filtering capabilities. You can now run reports based on various demographics (test date, test name, location) and student accommodation for easy filtering of data. 31 Locator Test Report 32 Individual Diagnostic Profile: Returns Student: TABE Level Scale Score GEL NRS Level 33 Individual Diagnostic Page 2: Individual Diagnostic Profile 34 Individual Diagnostic Page 3: Individual Diagnostic Profile 35 Group List Report 36 Item Analysis Report 37 Finally, if you are also using ITTS, you can import student TABE scores from TABE Online into the ITTS program. This automatically creates student-personalized study plans. Requests browser sent 16 CSS, Javascripts, AJAX and video requests in order to fully make the home page Oas Ctb. We recommend that multiple CSS and JavaScript files should be merged into one by one for each type, as this can help reduce asset requests from 8 to 1. JavaScript and therefore speed up page upload time. Possible query optimization In terms of redirections, our browser has reached this domain in three stages. The first redirection resulted in then it was forwarded and then it was sent until we finally managed to access this site. We strongly recommend that you reduce redirections because the more you redirect your site, the slower it is address This IP address is for Oas.ctb.com. This is the best domain hosting practice. oas.ctb.com 192.243.90.230 Language and EN Detected N/A Positive Language, positive html metatag, should match the language actually used on the web page. Otherwise Oas.ctb.com may be misunderstood by Google and other search engines. Our service detected that the page was using English, and neither this nor any other language was positive <html> or <meta> tags. Our system also learned Oas.ctb.com that the main page claimed coding is iso-8859-1. Changing it to UTF-8 can be a good choice because this format is typically used for coding across the web, so their visitors will have no problem with transcription or reading of characters. The HTTPS certificate Oas.ctb.com does not have an SSL certificate. Browsing the web can be more secure with HTTPS, so we suggest you get it on this site. Visitor World Map of Country of Origin 100% of all visits are in the United States. It's good that Oas.ctb.com that their server is also available in the United States, as it allows most of their visitors to take advantage of much faster page upload times. Social Sharing Optimization Open Graph Description is not detected on the main page of Oas Ctb. The lack of an Open Graph description may be the opposite of their presence on social media, as such a description allows you to convert the site's homepage (or other pages) into well-looking, rich and well-structured posts when it is shared on Facebook and other social media. For example, adding this code snippet to html <head> tag will help you correctly represent this web page on social networks: Share this report on social media in the DRC is a proven, nationally recognized survey partner for corporations, federal agencies, state governments, and non-profit institutions. </head></html>
