Over the years, we have built relationships with hundreds of authors and advisory editors from healthcare professions who help craft and validate our trusted handbooks and manuals for pharmacists, doctors, physician assistants, nurses and advanced practice nurses , dental professionals and students. The drug information handbook promotes drug safety and pharmacological knowledge. Some of the top titles that have been trusted in the industry for decades: The Adult Medicines Information Handbook: Validated by the American Pharmacists Association (APhA) and selected daily by healthcare professionals as their resources to help improve drug safety and enhance patient care. Pediatric & Infant Dosage Handbook: Includes drug thematic areas dedicated to infants and children. Medicine Information Handbook for Dentistry: Designed for any dental professional looking for relevant clinical information about medications, OTCs, and products Pharmacy. Small dental medicine Pocket booklet provides dental professionals with summary information on prescription writing, useful websites, and common abbreviations. Drug Information Handbook for Cancer: Supports the needs of oncogenes involved in the prescription, preparation and management of therapy. Advanced Practice Nursing Medicine Information Handbook: Designed to help meet the unique needs of advanced practice nurses, supporting both regulation and nursing care. Instructions for use provide additional support and knowledge development for dental professionals: Oral stiff tissue disease: A quick reference guide to visual identification and diagnosis of common bone damage. Oral soft tissue disease: A visual manual designed to support the diagnosis and treatment of oral soft tissue diseases. Clinical periodontal instructions: Support dental professionals with diagnosis and treatment planning for periodontal diseases. Dental Implant Manual: Provides clear, step-by-step instructions regarding dental implants. Emergency Medical Dental Office, Guide to Using Office Response Protocols: Assists dental professionals and staff in resolving emergency situations.
