This is a simple guide to making quick money in the runescape. MONEY WITH CHICKENSTo make money with chickens go to a chicken farm (there is one in Lumbridge if you follow the northern path) and kill the chickens there feathers. When you have about 1,000 or more go to GE (Grand Exchange) in Varrock and sell them at market price (usually around 6gp each). MAKE MONEY WITH VACASFirst to make money with cows, go to a cow pasture (there is one just east of Lumbridge Castle and one behind the Lumbridge mill. The Lumbridge plant is better because there is a bank vault there). When you get there take the hides they drop when you kill them and when you have 500 go to GE and sell them at market price (usually around 114gp). MAKE MONEY WITH BONESTo make money with bones go to a place that has creatures you can kill quickly (For example: just east of Lumbridge there are low-level elves). Then kill as many as you can and take the bones given to you when they die. Bank them and when you have collected 500 of them go and sell them at GE for market price (bones:76gp-monkey bones:193gp -burned bones:192gp --big bones:339gp). (To get big bones you need to kill dragons) HOW TO GET MONKEY BONESTo get monkey bones you will have to go to Port Sarim with about 200gp and talk to a captain or customs officer to get a ride (that's what the money is for). Take a ship to Karamja and go into the jungle. When in the jungle you will see monkeys kill them and they will give you monkey bones. There is no bank in Karamja unless you are a member, so you have to go and between Port Sarim and Karamja.MAKING MONEY WITH MINING To make money by mining mine's first copper ore (you can mine copper ore south of Lumbridge Castle) until your mining level is 15. Since it's level 15, then go only and and varrock and there's a mine. You'll find 3 iron rocks (you can prospect them to find out what they are), mine these rocks and bathe them north of the mine until you have 500 and sell them at GE (iron ore sale between 99-101gp). EARNING MONEY COOKINGQUIREMENTS:Level 30 fishingLevel 25 cooking (optional)Fly fishing rod Fishing bait To earn money fishing you must fish salmon in a river. To catch salmon you will need to go to a river with the amount of fishing bait as you want to catch salmon/fish. When you take a full inventory bank and return to the site and keep repeating the process until you are off the fishing bait. When you're done, go sell it at GE for the market price (73gp gross and 60gp cooked)MAKING MONEY FOR WOODCUTTINGRESQUIREMENTS:Level 30-60 lumberjack axe better than bronzeTo make money from cutting wood you will have to have a very good axe and find a willow or teo tree, depending on your level (yew: level 60 willow wood: level 30-willow firewood). When you find your tree cut down the tree until you have 500 of the trunks. Then go to GE and sell them at market price. Willow trunks: cut wood level 30 and sell by 18gp --Yew trunks: cut wood level 60 and sell by 473gp. EARN MONEY WITH DRAGONSTo make money with dragons you will have to go to the desert and go north until you find dragons. When you find them make sure that you can kill them and that you have an anti-dragon shield. Once you have done this, then kill them and take everything they give you (they will give you big bones for sure and green d'hides and some other random but good things). Kill them until you have almost no health or you have a complete inventory. When one of these things happens, then go sell him products on GE (Grand Exchange) at market price (you'll get 339gp for big bones and I don't know how much for a green d'hide). EARN MONEY WITH MININGQUIREMENTS:level 30-70 miningTo make money from mining you have to get to a mine that has at least coal (it would help if you could go in the mining guild). When you are in your target coal mine until you have 500 and sell it at GE for market price (usually around 177gp). You can also mine mithril ore, inflexible ore and gold ore when you have a higher mining level for more money. Inflexible ore: mining level 70 and sold for 1,014gp each - Gold ore: mining level 50 and sold for 501gp each - Mithril ore: mining level 55 and sold for 264gp each - coal ore: level 30 mining and sold for 177gp each - clay: level 1e sells for 99-101gp each. You need to, now learn how to make it become money crasher! Subscribe to our Recent Stories newsletter in Make Money You have, now manage. Become a Money Crasher! Sign up for our Recent Stories newsletter on Manage Money Raise your hand if you can't afford the divorce. Money may not really really happiness, but can buy freedom, and this translates into happiness eventually. I can't deny my need, especially when I'm eating noodles a few times a week with the kids and not enjoying it almost as much as they do. My husband moved in less than three months ago, taking two-thirds of my family income with him. Now I can walk the fine line of getting the money we need from him, but leaving him some money too. Believe me, there's a vengeful, grumpy Ellie in a red suit perched on one of my shoulders telling me That I should have thrown her stuff on the lawn. I should have taken his bank cards, seized our joint accounts and happily cacted when he begged me enough money to make a deposit at the trailer park in the southback of town. Realistically, though, that's not an option when you have small children. I need him to live in a safe and reasonably pleasant place because my children will live with him, too, every two weekends and a few weeks in the summer. I also have a constant war with my personal pride. I only asked for child support, no spousal support, and on a reasonable level. Part of me would like not to have to take a dime from him. I keep imagining him telling his girlfriend that his wife is still taking all his money. Stupid, I know. His money pays for a mortgage I couldn't afford alone in the only house my kids ever knew. Buy sit-in snooans and pay for utilities. Now, between his money and my salary, the bills are covered and there's only a little bit left. How many divorced women dream of winning the lottery, I wonder? This content is created and maintained by third parties and imported into this page to help users provide their email addresses.
