## Sql server fundamentals exam

All of the Lynda.com you know and love Plus, customizable personal course suggestions are only for you All the same access to your Lynda learning history and Nice article certification! I have scanned through this article and can't help but see a lot of Research Links in your list. It is more necessary for this particular exam, but it is always better to be more pre-paired than under pre-pairs. With a strong understanding of all the Study Links posted in this article, you will stand a pretty good chance of also passing the next exam, 70-461, which is the first exam 3 for your MCSA. As for the reference book for the exam prep, I saw some customer reviews for each one, and all of them had very poor ratings. So, I did a bit of research and found one that leads specifically to this exam and full of great reviews (as on Amazon). Here's a link to the book in question: sr\_1\_1?keywords=Exam+98-364&amp;qid=1562863603&amp;sr=1-1-catcorr If the link doesn't work for someone, just do a Google or Amazon search book with the title: Basic Database: Microsoft Technology Associate Exam 98-364 Paperback - 2015 edition. Otherwise, the article is fantastic. You have disabled non-critical cookies and browsed in private mode. For the best experience on our website, please accept cookies. For additional information, please read our privacy policy. Exams 98-364: The Basic Database verifies the knowledge of the candidate's database. Candidates trying this exam seek to showcase and verify their identification knowledge and skills related to the database, including contact databases, such as Microsoft SQL Server. MTA is Microsoft's latest technology certification exam that ceramies the basic knowledge needed to start a career using Microsoft technology. The program is targeted to provide a suitable entrance for future careers in technology and consider some hands-on experience or training. About MTA Microsoft Technology Associate (MTA) certification is actually designed to fit in the curriculum of secondary school and college education programs to give students advance IT background exposure to Microsoft's technological core and high-tech work roles. Each MTA certificate expects any candidate to pass only one exam that will stand as their credibility in the mission's critical IT domain. MTA exams are more like initial tests ranging from basic courses and laying a solid foundation for advanced stage. Exploring the Role of Database Administrators' Administrator Work is given responsibility for important databases that include several platforms and environments. Environment, expected to be a strong team player who has the potential to succeed in a fast-paced environment. The person is responsible for building complex, high-scale databases that can meet different business needs and security needs. Position holders are believed to have expertise in optimizing, maintaining, and solving database problems, designing archives, data distribution, and high availability solutions. The main task of the Database Administrator is to ensure that data is available, protected against loss or corruption, and is easily accessible when needed. Target Audience Everyone who starts their career path or wants to improve their understanding of the fundamentals of IT. All IT professionals who wish to consolidate their knowledge before trying the MCSA exam. The recommended Knowledge Candidates who conduct this exam must have a clear understanding of the concept of core databases, must know how to make database objects, manipulate data, understand data storage, and must be able to administer the database. Examination Results Examination Immediately after successful completing your Microsoft MTA 98-364 Examination, you will be notified of your pass or failed status within minutes of completing your exam. Also, printed reports that provide your exam score and feedback on your performance will also be provided to you. Your score will be forwarded to Microsoft within five business days. As far as the results of the Beta exam are concerned, your results will be visible on your Microsoft transcript. However, you'll see your results only if you've reached a passing score. Also, these results will be published on the Pearson VUE site within 14 business days, after a direct examination is published. Note - If you can clear your beta exam, you will get Microsoft credit for the exam and will also receive the resulting certification. Moreover, you do not need to restore the exam in the direct version after cleaning the beta version. Retake Microsoft Technology Associate (MTA) examination policy in accordance with certain retribution policies such as: Candidates have to go through a waiting period of 24 hours before retaking the exam if he is unable to achieve a passing score on the exam for the first time. If he is unable to get a passing score for the second time then he must wait for 7 days before taking the exam for another time. For each subsequent retrieval of the examination, a seven-day waiting period is imposed. He cannot take certain exams more than 5 times every 12 months. This 12-month period will begin from the first attempt, will then be eligible to re-retrieve the 12-month examination from that date. Microsoft's cancellation and rescheduling policy will temporarily waive the rescheduling and cancellation fees as long as any candidate cancels his examination within 24 hours of his scheduled appointment. If any candidate candidate or reschedule its examination within 5 working days from the time of the registered examination, a fee will be charged. No charges apply to any candidate if he reschedules or cancels an exam appointment for at least 6 working days prior to his appointment. If a candidate fails to make an appointment or does not reschedule or cancel it at least 24 hours before his scheduled appointment, he chants the entire examination fee.
