This works with Android and iOS. AMAZFIT BIP App – MiFit App is not refined as FitBit for health tracking and you can't install apps. AMAZFIT BIP's display to use a transflex color display looks like an old Gameboy color, and AMAZFIT BIP give a backlight that will help you read more easily in the dimmer light. AMAZFIT BIP is affordable and has an amazing battery life finally up to TP of 45 days (heart rate isn't always on), although you can't install any apps, but it's good for your choice.
