Lake miltona mn ice fishing guide 2019

Are you ready to catch fish? Check out our competitive rates and call to book your trip today! (254)644-5273 Hi, I'm Nate Leininger, your guide at Lakes Area Guide Service. I have been a lifetime fisherman and have been fishing the Alexandria Lakes Area for more than 10 years and have led people on successful fishing trips for several years. Give me a call today to plan your affordable guided fishing trip in the Alexandria Lakes Area. I specialize in catching walleye but also do guided trips for northern pike, bass and panfish or we can do a multi-species journey. I spend most of my time fishing and guiding on Lake Miltona, Lake Ida, Lake Reno, Lake Osakis and Lake Maria. Click here to see a video of the action! Lake Miltona offers endless activities for visitors to enjoy. The crystal clear waters and sandy beaches invite many entertaining ideas for those looking for some fun in the sun. The most popular Lake Miltona activity is fishing. Lake Miltona is a diverse and healthy fish habitat. It holds extensive apartments, submerged islands and bars and has depths of more than 100 feet. The water quality and clarity are considered excellent. The months of December, January and February give excellent ice fishing for those who like Walleye, North Pike, Crappie and Panfish. Also, without the ice, usually April and early May offer astonishing opportunities for a trophy Crappie. By the first Saturday in May, real Minnesotans are on the lake looking for our great state fish, the Walleye. While the water warms the bays in late May, the Bass and Panfish become extremely cooperative. Catching more than 100 fish during a day is not uncommon! Fishing reports for the Alexandria Lakes area are provided by local fishing guide, Mike Frisch - Fishin' with Frisch. Check the latest reports for any seasons to find out what bites and the best techniques to use! Whether you're new to fishing or a seasoned expert, make every fishing holiday memorable.
