Flux brace glock 19 gen 4

We started modern warriors for the sole purpose of providing a less expensive way to enjoy our love to buy and shoot some really cool things. What started out as a hobby turned into a business where we developed the experience and ability to help you enjoy our own hobby and save you money in the process. We specialize in tactical weapons, including suppressors, short barrel guns and full car weapons. We have routine experience shooting weapons that we carry, so if you want our opinion on how to operate a weapon, we will gladly provide it. We also have experience working with licensed professionals in establishing firearms trusts, which is an ideal way to purchase, own and operate any weapon restricted by the National Firearms Act. It is very easy to set up one if you have the right to help. Learn more * Not a firearm. This bracket version is not designed and is not intended to be carrying. Important note: 8-10 week timeout before shipping. We do not sell or ship to anyone outside the USA. Does not include firearm. Check all local and state laws.
