Texas Education Code (TEC) §38.003 defines dyslexia as follows: (1) Dyslexia implies a disturbance of constitutional origin manifested by a difficulty in learning to read, write, or spell, despite conventional teaching, adequate intelligence, and sociocultural opportunity. (2) Related disorders include disorders similar to or related to dyslexia such as developmental auditory imperceptions, dyspharia, specific developmental dyslexia, developmental dysgraphia, and developmental spelling disability. TEA Definition Click here for the IDA definition... What is Dysgraphia? Dysgraphia is best defined as a neurodevelopmental disorder manifested by illegible and/or ineffective handwriting due to difficulties with letter formation. This difficulty is the result of deficits in graphomotor function (hand movements used to write) and/or store and retrieve orthographic codes (letter form) (Berninger, 2015). What is 504? Section 504 is a federal law that prohibits discrimination against disability by recipients of federal financial assistance. All public schools and school districts, as well as all public charter schools and magnet schools, that receive federal financial assistance must comply with section 504. To be protected under Section 504, a student must be determined to: (1) have a physical or mental disability that significantly limits one or more major life activities, or (2) have a record of such impairment, or (3) be considered to have such impairment. Consultation and technical assistance is available to assist school districts with compliance under Section 504 of the 1973 Rehab Act. 10/28/2020 at 12:00 CET.
