Something, something as simple as me listening to your name puts me, puts me in a place that I can not even explain that I didn't really know back then but right now I'm totally sure Baby I know I'm your friend but I want to be much more that I burn the butterflies when I see you come Oh boy you have me running This feeling in my stomach tells me that I should be your wife Because you are the only one who makes my fairy that makes my fairy story come true How can someone make me so sad but I still just want them to stay I mean I love you so much, but I don't want to scare you please I want you to understand that I want to be more than your friend I would like to like to see you, I see you talking to them on the phone I wish I can tell them all to leave you alone I really didn't know at the time , but right now I'm totally sure I want to be much more That's why I never really like your girlfriends Why I never gave them a chance because I realized I'm your wife How can someone make me so sad but I still just want them to stay I mean I love you so badly, but I don't want to scare you please , I want you to understand that I want to be more than just your friend I would like you to love me He said if you really love someone, I mean really love someone Let me hear you say yes yes If you really need them And you know in the background you will never leave 'Let me listen to you yes Listen you say yes Yes ,How can someone make me so sad but I still just want you to stay I mean I love you so much , but I don't want to scare you Please, I want you to understand that I want to be more than your friend I would like you to love me [x3] Thanks to JB for correcting these letters.
