This owner's manual was uploaded by a member of the OwnerManual.co and can also be found on the manufacturer's website here Manufacturer: Hyundai Body Type: Download Manual Manual Description Even when digeber, the protection of your restraint system 2 (seat belts and airbags) is greatly reduced saf by reclining on your back seat. Carefully lean on the seat and adjust the seatback to the Driver and the passenger must be 2. The front seat can be adjusted to When the seatback is reclined, the use of a control switch located on the shoulder belt cannot perform its duties outside the seat cushion. Previously because it would not be comfortable against driving, adjust the seat with your right chest. During an accident, you can steer, pedal the foot and be thrown into the seatbelt, causing control on the instrument panel. To change the height of the seat can be operated when the pillow: the machine is turned off. Even when swiped up, the shoulder belt can't do its job protection from your restraint system because it won't be comfortable against (seat belts and airbags) your chest. During an accident, you can be thrown into a seatbelt, causing neck or other injuries. Press the front of the switch by pressing the lumbar support switch to increase support or the switch. Do you know where your vehicle owner's manual is? If you do, have you ever seen it? When you consider how you try to find answers to your questions in every other aspect of your life – cooking, getting directions, DIY ways – and you realize your incoming resources are electronic, wouldn't it make sense if your phone or tablet could answer all the questions designed to be answered by your owner? Enter the hyundai sonata 2015 owner's manual app for Android. First on the 2015 Hyundai Sonata, soon available on more Hyundai models doing something cool with so-called augmented reality - they've developed an easy-to-use app for your phone or tablet that accesses your device's camera to help you navigate the different functions and parts of your vehicle. Imagine pointing your phone at the Sonata console and seeing some interesting places you can expand - the app anticipates your questions based on your real-world interactions with your car.
