All items (237) Community content is available in CC-BY-SA unless otherwise noted. Items in Monster Hunter World are equipment that Hunters can take to the field in their Item Bag. This page provides a list of links to information on how to purchase and use any Item. For information about the parts used in creating Armor, Weapons, and Raises in Smithy, see Materials. Skip to item List Acquisition, Use, and Storage of Items There are some sources outside of the collection from which a Hunter can purchase Items: All Plants and Insects, as well as Honey, can be grown at the Botanical Research Center in Astera to facilitate the preparation of large amounts of Items. Whenever Argosy arrives at Astera's Tradeyard, they can bring most items - from restorers to tools to plants. Tailraider Safaris can also bring back monstrous items and materials that can be collected at the Location to which they were shipped. They allow Hunters to purchase many useful items to prepare for fighters. Some items serve only as consumables while in the field, while others serve exclusively as Materials with which a Hunter can make other items directly from your Bag. Some can serve as consumables and materials. Bowgun Ammo and Bow Coatings serve only as ammunition for Bowguns and Light and Heavy Bows or Materials for updated ammo versions. There are also several Fixed Items that remain in the Item Bag and Item Bar at all times - these are listed under Tools, Traps, and Bombs. The Item Bag, along with many other parts of the Hunter Equipment, can be saved in custom arrangements. See Loadouts for information about storing and using items in the field. See also supply items for information about items occasionally provided to Hunters in Missions. Viewing items in the Item Box This page also contains a list of Evaluation, Trade-In, and Ticket Items, all of which can be found in the Materials section of the Sell items from The Item Box function - with the exception of Decorations, which have their own section. The Evaluation Items are awarded at the end of Quests, and take the form of Sullied and Shining Streamstones, and Feystones. Trade-in items can be collected from Monsters during the (bright,) battle brought by Argosy, or found during fishing. The only of them is to be sold by Zenny. Ticket items are obtained at a given event event Arena, and Arch-Tempered Elder Dragon Quests. They serve as fusion ingredients and crafting materials for specific armor and weapon parts, as well as Delivery Items for Layered Armor. Some ticket items may not have a ticket in their name. All items on the list of ammo sculptures sculptures and coatings items from the mhw bill materials, please wait while your url is generating... 3 Resolution: Image Size: Download
