Faith August 1, 2012 Islam, Praise Allah, the Creator of all things in heaven and on earth. Praise Allah who pitys us and sends us a Prophet to warn us of the wrath that is certain to come. Honor to the Prophet Noble Drew Ali who followed the instructions. Obedience is the first Maxim. Can we really be obedient to Allah? Allah sends a Prophet to every nation to give us the message to turn from our sinful ways and enter the straight path. To praise Allah only! He's the one who will answer your prayers. Allah felt sorry for us. The Prophet Noble Drew Ali says, if I can make you think, you can save yourselves. The Prophet Noble Drew Ali brought us what it takes to save a nation. If we imitated the Prophet, we'd be straight. It's our example. The Prophet Noble Drew Ali brought us back our Nationality. We were black ourselves and some of us still do. Why? Because we're not thinking. Black isn't color? I see black bag. How can a color connect to any group of people and why would we accept that without guestions? We're not thinking. I got a call one day. They asked me if I'd fill out this form that was sent to me in the mail. I told her, NO! She asked why, and I said, Your form has nothing to do with me. I see different nationalities in your form and then reads black and white. I asked her, can I go to the airport and tell the ticket person that I want a ticket to Black? I told her they'd look at me like I was crazy. Can I get a ticket to White? He's crazy again. Black and white are not continents or countries. How could it be a nationality. How to attach a color to any group of people. I can, however, get a ticket to Africa or even which city. Black is not one of them. I can get a ticket to Europe and once again I need to know which country and city in Europe. If we thought, we could save ourselves. And yet, that is still not enough for our people. I find myself telling this story over and over and giving all sorts of examples like, my wallet is black, your computer is black or my turban is black and they still want to keep calling themselves these names that are a result of slavery. We're not slaves anymore. We have a nationality, and the Prophet Noble Drew Ali brought it back to us. The loves us and constantly shows us the guidance and the straight path. Did you know you had a flag? I mean a real flag and not a banner that some of us think is our flag. Marcus Garvey is the forerunner of the Prophet Noble Drew Ali. He wanted to make us start thinking with. We should be proud of who we are. We need to get the Europeans off our walls, We have to give our kids toys/dolls that look like us. We have to read and have books about our own people. We should have Self-Pride! Marcus Garvey was an example of that. We are worthy of our own flag and the Prophet Noble Drew Ali brought it back to us. Now, we can keep our heads up like everyone else. Now we have our Nationality and the Divine Symbol of Our Faith. 19. What kind of flag is Mauritanian? It's a red flag with five pointy green stars in the center. 20. What do the five points represent? Love, Truth, Peace, Freedom and Justice. 21. How old is our flag? It's over 10,000 years old. We live according to the principles of Love, Truth, Peace, Freedom and Justice. These are the highest principles known to man. Can we be obedient to the authorities? Can we be obedient to Allah? Can we love and not demand love in return? Can we obey all the laws set by the Prophet has given us laws that we must observe. He says that if you can't obey the laws, then hold your position, or even later, you think you can't obey them, then go back to the situation where the Prophet found you and turn your card and button and stop wearing the turban or fez. We must obey all laws and not choose the ones that fit our programs. They instruct us not to eat meat. Some may say that this is only for sheikeses. Chapter X v.9-10 Now, men and birds and beasts and the suffering things are deities, made flesh: and how dare you kill anything? It is crueity that makes the world crooked when men have learned that when they harm a living thing, they harm themselves, they certainly will not kill, nor cause one thing that Allah has done to suffer from pain. Chapter XI v. 35 And now man, in his absolute shamelessness, knocks down and eats the beasts ... He obeyed all laws, not some. Obey the instructions and live the life of the Moorish character. We must return all thoughts and customs to European nations. We're not going to serve the gods of their religion. Chapter XLVIII 7-8 Therefore we return the Church and Christianity back to the European Nations, as prepared by their ancestors for their earthly salvation. While we, the Moorish Americans return to Islam, which was founded by our ancestors for our earthly and divine salvation. Let's to escape from the gods of Europe and return everything back to them. their thoughts, their teachings, their things and their religion. Let us be obedient to Allah. Let us imitate the Prophet Noble Drew Ali and be the message we bring. Don't be like that piece of wood pointing the way. Peace and Love, sis. Chermonique Moreland El, Shakes Shake January 8, 2012 Islam, Praise is to Allah. Sometimes we Moors run into internal issues stemming from the fact that we have those who hold the Sheikhs and members who have met those outside the M.S.T.A. who question the validity of the Prophet Noble Drew Ali and his teachings. They have the impression that if we do not follow Arab customs, culture and traditions, we are not real Muslims. That's further from the truth; Also, general opinion is not proof of the truth, because the generality of people is ignorant. These are our teachings, to have faith in them. Whatever Prophet Noble Drew Ali brought us can be proven by the final revelation of Allah, the Holy Koran of Mecca itself. That is why it is so important for the Moors to know their Holy Korans. Both of them. Not from an Arab point of view, but from the point of view of Allah, from the point of view of Allah, from the point of view from which it comes. Remember, Allah is our Protector, our Guide and our Salvation. through Drew Ali brought us and taught us. Those of us who do not understand this and have faith in it demonstrate an empty prayer and should truly ask Allah for guidance. We are under the Divine Laws of the Holy Koran of Mecca and Allah guides us in Chapter 30 verse 60: And your Lord says: Call Me, I will answer your prayer; Allah guides us to pray to Him to guide us. Talk to him. He will confirm for you the truth about the teachings of the Prophet Noble Drew Ali. It will give you the ammunition to defend yourselves and defend your Movement. You will be able to stand alone and you will be able to stand with your nation as a Moorish American Muslim. We are not Arabs: We are Moors and descendants of Africa, we have our own way of life. They have their ways and we have ours. The Prophet Muhammad was not the founder of Islam, he was the founder of the United Of Islam. because of it we unite as a community. Arab tribes do not have a monopoly on Islam, its practices or its Doctrine. Praising the One and Only God of the Universe with no sons, no daughters, no adversaries or no equals is not new. We have been Muslims for fifty thousand years, they are iust beginning to practice Islam; have about a hundred vears under their belts and each of us continues to grow and unfold. In fact, most of those who try to tell you how to praise Allah and that the Arabic tradition is true Islam have a misconception in relation to practice of Islam and the dissemination of Islamic teachings. Chapter 9, verse 97 of the Holy Koran of Mecca shows that these are harder in disbelief and hypocrisy, and more likely to be ignorant of the limits that Allah has revealed to his messenger. Allah also guides Prophet Muhammad what to tell them when they claim to be true believers in chapter 49, verse 14: The Desert Arabs say, We believe. Say, you have no faith. But you (only) say, 'We have submitted our covenants to Allah,' because no faith has yet entered your hearts. But if you obey Allah and His Messenger, you will not underestimate aught of your aught of your sins: for Allah is Oft-forgives, Benevolent. Perhaps this is why they in size that Islam means submission when we all know that the word Islam itself means Peace. Our religion is Islamism, the practice of Peace. Freedom and Justice, Love is the key and justice is the lock. Peace is in our face and in our behavior and in the visibility of our lives. Peace with ourselves, Peace with Allah, Peace with man and peace with our fellow creatures. Our other principles really prove that he is our free will, our power to choose, the freedom to move and think and act, etc. Chapter 22, verses 67-69 of the Holy Koran of Mecca reads as follows: To each nation we have given sacred ceremonies to be performed; Let them invite you to your Lord. Lo! You do follow the most correct guidance. And if they fight with you, say: Allah knows better what you are doing. Allah will judge among you the Day of Resurrection on what you differed from. The Holy Koran itself teaches us in detail everything we need to know. for Allah himself is the Great Master. For example, they say the Prophet Muhammad was the last of the Prophets. However, the Holy Koran of Mecca reads that it was the Seal of the Prophets. Last and Stamp are two different words in Arabic or any other language for that matter. The latter is synonymous with authenticity. As for the Prophet Muhammad, his Final Revelation was revealed, but he was not the final Prophet before the end of the year. The Prophet Muhammad said in his last speech that if someone says he said something and is contrary to what they say if what they say is not found in the Holy Koran of Mecca. Our Final Revelation that a Prophet is sent to every nation and that a nation will not be judged until a prophet is sent. This is what Prophet Noble Drew Ali meant when he said: Allah is the world and His judgment is now underway. Now that the Prophet Noble Drew Ali has appeared to asians here in North America, we are now at the seat of crisis. But the weak can understand it, no. This is why the Prophet called powerful men and women who believe that their condition may be better. Because only the powerful can understand this reality and allow themselves to be quided by Allah and influenced by their Prophet Noble Drew Ali. This is the Divine Law. Is it right there in the Holy Koran of Mecca? study it and you will see for yourself that the Prophet Noble Drew Ali brought us the True and Divine Symbol of Islam. Everything about our doctrine proves that. The Prophet Noble Drew Ali said that he would not tolerate any interference in the operation of this Divine and National Movement by anyone. Therefore, any Sheikh, member or outsider who believes they can change the teachings of the M.S.T.A. to fit Arabic customs and culture is unfortunately wrong. I really had to appeal to members holding the title Sheikh who were under the impression that they could make it compulsory that members learn the Arabic way in order to become part of the largest Islamic community. This is the type of spirit that tries to subvert and drag out the true foundation set by our Holy and Divine Prophet Noble Drew Ali and cause confusion in the minds of those who believe. I saw this as my prophet's demotion and I couldn't stand for it. Personally I have nothing against these Moors, I simply have a duty to Allah, my Prophet and the Movement. I'm printing my response to these Moors not trying to front them or anyone else in the Movement (Therefore I'm reviewing and editing and I'm removing all personal names, etc. At this point

we Sheikhs are discussing it all the time, and if we agree or disagree on any given topic those of us who are true Moors still love each other, but we love each other.), but to give to all Moors who wish to obey the laws provided to them by the Prophet Noble Drew Ali ammunition them, if and when they face these same subjects and inspire Moors, and each of us must desire for our brothers and sisters what we desire for ourselves. and I wish that Allah increase my knowledge, my wisdom and my understanding and I desire for all true Moorish American Muslims. I know that a chain is as strong as its weakest link; Therefore, each of us must sacrifice the greatest of our lives to protect our Movement and our Prophet. Irene, brother Moreland El, El, Di.M. August 22, 2009 Islam, first of all we give praise to Allah, the one and only god of the universe. WE PAY HONORS TO THE HOLY AND DIVINE PROPHET NOBLE OF DREW ALI. SUBJECT: Interfering that the Prophet is the Law. The purpose of this Communication is to formally address members of the Grand House about certain misunderstandings regarding the functioning of the Moorish Science in general. It is a letter designed to trigger communications in relation to the Adept Chamber, Adept state of mind and the basic teachings of the Moorish Temple Science of America, etc. I'm going to be a little unnecessary. in fact I will be very unnecessary because there are obviously some things that moors need to hear more than once; Therefore, I will use the hammer to lead the truth and strike it until it becomes part of the consciousness of every part of the Moors. We are again in a state of emergency. We are in a state of emergency when the Grand House of the Moorish Science Temple of America cannot come to a consensus to do things in the manner of the prophet. We are in a state of emergency when the Governors and the Great Sheikhs want to unite the teachings of the Prophet with some other teachings. We are in a state of emergency when the Great Sheikhs and Commanders have the impression that the Prophet did not really bring us everything, but just laid the foundations and nothing more. We are in a state of emergency when we have the impression that the Prophet Noble Drew Ali did not bring enough. These sheikhs think we need to bring in more materials to complete the cycle. We are in a state of emergency when we have Sheikhs who recognize the Prophet, but this particular Prophet came poorly equipped. We are in a state of emergency when we have Sheikhs trying to bring teachings to the Moorish Scientific Temple of America instead of receiving teachings from the Moorish Scientific Temple of America. We are in a state of emergency when we have Great Sheikhs and Governors who do not know the Moorish Temple of America Divine Constitution and Regulations. or worst of all who don't know the Moorish American Prayer. There are many religious classes and religious societies in the world today. What we belong to was founded by Noble Drew. It's called the Moorish Divine and the National Movement of North America. It houses the Moorish Temple of The Science of the World, whose corporate name is the Moorish Scientific Temple of America. It's not an order, Sufi. It's Moorish science. It was founded by and owned and operated by the Prophet Noble Drew Ali said, There is only one Moorish Scientific Temple of America, and it is mine. It's all in him. He owns their literature, supplies and teachings. He owns the Moorish Science Chamber of America. He owns everything. And Allah has him, the M.S.T.A. and all of us! All The Experienced know that, then he's not really an expert of the Moorish Scientific Temple of America. He can be experienced. It's just not one of the Moorish Scientific Temples of America. The Prophet Noble Drew Ali said: I have brought you what it takes to save a nation. Now take it and save yourselves. We have the impression that he wasn't telling the truth. I say this because they want to introduce and practice something other than what the Prophet Noble Drew Ali brought. What does it mean I brought you what it takes to save a nation for you? Obviously nothing because you keep trying to push what the Prophet didn't do. As mentioned, there are many orders and societies and each has their own Adepts. They have those who are skilled and capable in their science what they can be. They are approved by their founders and/or leaders and are empowered to do what they do. The experienced of the Moorish Scientific Temple of America are specialized in the teachings of the Prophet Noble Drew Ali. That's it, that's it. They may have other skills, but what makes them Adepts of the Moorish Science Temple is that they are capable of obeving the Prophet. Obev Allah and obev his prophet, Noble Drew Ali, This is what makes them capable Sheikhs. There seems to be, in the Great House and in the Hall of Competencies, a misunderstanding about the purpose and functioning of the Moorish Scientific Temple of America. Yes, it is important and we need to grow and develop. But we must do this according to Moorish science, focused on the prophet Noble Drew Ali and what brought us. Yes, we need schools and hospitals. We have to have businesses and charities But to have these things we must first understand what it means to be a member of the Moorish Scientific Temple of America. The Scientific Temple of America was here before any of us were born. Again, it was founded by the Prophet Noble Drew Ali. He set it up and designed every aspect of it. No one had ever heard of the phrase phrase phrase Temple Science before Prophet Noble Drew Ali created. Everything about it belongs to him and everything about his teachings comes from him. As long as we obey him, we're in the loop. So we're real Muslims and we're real Moors. Everything we need, Prophet Noble Drew Ali mentioned; and did not mention hadith or Sunnah or learning Arabic. We're Black Americans, we have our own way of thinking. We have our own way of doing things. We don't think like Arabia. We don't even think like the sons of Egypt's great empires. Let's be the same and stop trying to fit in with others. These are instructions for children. I shouldn't have to go through this with those who hold the title Sheikh. Looks like you Moors have never had lessons in. C of M.S.T.A. That's obvious from the way you're carrying it now. The Prophet Noble Drew Ali brought us everything we need. We don't need any more stuff. One of you Moors proved that he is not just a parrot of the Prophet, in speech and teaching means that you are a parrot of the Prophet Noble Drew Ali, at least a parrot of his teaching methods and structure. A Moor also said that if I don't trust someone else, then I don't trust them. Well, if someone has proven that, as the sheikh of the Prophet Noble Drew Ali alone, without mixing them with what someone else has to say, then he is not trustworthy. Some of you have never been taught Moorish Science, nor have you had examples of those who are obedient to the laws of the Prophet. That is why you have shown the spirit of contempt; It's on you and inside you. Some of you say that the Prophet only laid the foundations. How dare you! The Prophet Noble Drew Ali laid the foundations and built the house. All we have to do is live in it. If it was not produced, mentioned or derived from the teachings of the Prophet Noble Drew Ali, then it is not Moorish Science. The only thing we must bring to the table is obedience to the laws of the Prophet. That's it, that's it. Any personal skills and talents we have will unfold in our obedience to the laws of the Prophet. I'm surprised at some of you Moors. There are reasons why others just don't get it, but some of you have no reason to promote the use of Arabic in our teachings. You yourself said that the Prophet did not teach it. Sorry, the objects being promoted are unacceptable, because this is the Moorish Scientific Temple of America. Do you think that with what you brought from the other end of the Can you make Moorish Science even better? Once again, how dare you! How dare you think you can offer us better teachings than ours Noble Drew Ali! Don't we need a supplement? All we need is to follow the Prophet's instructions. I don't know where you Moors come from. but apparently it's not from a temple of America, because you don't know Moorish science. We don't teach what you bring to the table. You say we should be part of the Greater Islamic Community. The Prophet Noble Drew Ali said that we will be part and part of all the encouraging acts of the Moorish Science, then you would know that the Prophet Noble Drew Ali already made us part of the Greater Islamic Community. In the Greater Islamic Community we praise the one and only God of the universe. Allah, we live a life of morality and demonstrate certain rituals. In the Greater Islamic Community we have the principles of Love. Truth. Peace. Freedom and Justice, the highest principles known to man and are ancient principles of the Moabite Nation. In the Greater Islamic Community we serve our close relatives, the stranger at the gates, the enemy who seeks to harm us. We help the weak, we hurt no one, and we don't covets what's not ours. This turns out to be almost word for word in both the Holy Koran of Mecca and the Holy Koran of the Moorish Scientific Temple of America. We are part of the Wider Islamic teachings, not because we speak the Arabic language. Of course, the Holy Koran of Mecca was revealed to the Prophet Muhammad in Arabic. Because he was an Arab. That was the only language he spoke. He couldn't read or write. He only knew how to talk. The final revelation had to be revealed to him in the language of his mother tongue or he wouldn't understand it. This fact is explained to us in the Holy Koran of Mecca itself. Study it and you'll see for vourself. Being part of the Greater Islamic Community is not based on the language of our languages, but on the language of our hearts. The gifts of understanding are the treasures of Allah and he hath appointed to all his portion, to what extent seemeth good to himself. Therefore, if we do not understand what the Greatest Islamic Community is, then it does not endow us with wisdom or enlighten our minds with the knowledge of the truth. One brother wrote that Allah endowed him with wisdom and that he enlightened his mind with knowledge of the truth and yet he does not know the truth about the Moorish Temple of America. The truth is we can't add anything to it or take anything away from it. We can only grow and unfold with it and create the our laws of the Prophet Noble Drew Ali Ali The Great Temple. The Prophet covered it all up and put a stamp on it. You Moors just don't think, and you don't know you don't think. You call yourself Adepts of the Moorish Scientific Temple of America. Who was your first Grand Sheik? What did he teach you? Apparently it wasn't Moorish Science. In Moorish Science we teach only what the Prophet Noble Drew Ali is the Prophet of Allah. He's the founder of the Moorish Science Temple of America. If he didn't bring it then it's not Moorish Science, it's some other kind of science. I am a true Experienced of the Moorish Scientific Temple of America and I can make my case and I Prophet Noble Drew Ali. In the Holy Instructions Prophet Noble Drew Ali, the Holy Koran of Mecca is about teaching and guiding all Moorish Americans, etc. There is no Sunnah or hadith that is a part of these Holy Instructions. We can't make them part of his teachings because he didn't make them part of his teachings. Therefore, here is a message for those who have the impression that they can strengthen the prophet steachings. You can't support the teachings of the Prophet of Allah. How dare you! You can't add anything to his teachings to make them better. But by thinking you could show your character. Let me say that again. There is nothing you can add to Moorish Science to make it better, absolutely nothing! You have nothing special lessons or special ceremonies, etc. You don't even have six articles of faith. Allah mentions to us in his final revelation (The Holy Koran of Mecca) five articles of faith in his Angels, faith in his Angels, faith in his Scriptures, faith in his prophets and faith in his prophets and faith in his Prophets and faith in his Angels, faith in his Prophets and faith in his Prophets and faith in his Angels, faith in his Angels, faith in his Prophets and faith in his Angels, faith in his Prophets and faith in his Prophets and faith in his Prophets and faith in his Angels, faith in his Prophets and as well? That's an oxymoron. and most unacceptable. How dare you think you can enhance the Final Revelation of Allah himself! The Divine Decree is expressed and explained in Chapter 1 of the Holy Koran of the Moorish Temple of Science: in simple terms: The law all the facts'. You put all this misinformation on our website calling it Moorish Science. We came from the Original Temple of the Prophet in Chicago and yet our website contains no contains Original Teachings. It contains information that is not produced in the Moorish Scientific Temple of America. Therefore, it is not Moorish Science. Those who proved the website and anyone who imposes sanctions on the vebsite violate the laws of the Prophet. This statement is demonstrated by the website itself. Again, the Prophet Noble Drew Ali gave us instructions in relation to the Holy Koran of Mecca; that it is to be used for the teaching and guidance of all Moorish Americans, etc. He did not mention that every hadith is to be used to teach and guide every Moorish American, etc. It was reported that the site is good marketing. So, what exactly is it that we're marketing? Yes it's good marketing if we're marketing arab Islam. It's not good marketing if we're marketing arab Islam. It's not good marketing? information on it to understand how to present the true Moorish Science and that the Great House approved all the information that exists in it. This request was rejected. So now let everyone involved try the fire. We confuse the minds of those who believe. That would make us evil spirits. The site is a travesty and an embarrassment. yes, it looks good. But when it comes to Moorish Science, its core is full of bitterness and bile. How dare we say that we promoted. Those involved with the site may hold the title Sheikh in the Moorish Science Temple of America; but the website itself is proof that it is not Adepts in Moorish Science. The true experienced of the Moorish Temple of Science of America know how to present Moorish Science of America know how to present Moorish Science of America know how to present Moorish Science in public. better teachers than the Prophet Noble Drew Ali? On our website in doctrine there is more Arabic science than Moorish Scientific Temple of America. In the .C M.S.T. of A., we put the Prophet Noble Drew Ali on the line. He's in the front. All these other things are your personal information and we don't need it for public use, support or support, The last Prophet these days is the Noble Drew Ali, who divinely in due course by Allah to redeem people from their sinful ways, and warn them of the great wrath that is sure to come upon the earth. The Prophet Noble Drew Ali was prepared and sent by Allah. What better support is there? What better support is there than Allah All members of the M.S.T.A. Should bear fruit in it. The prophet Noble Drew Ali's experienced people would never do what we did or allow us to do. If we are not going to obey the laws of the Prophet and be good examples of true Moorish Science is not going to obey the laws of the Prophet and be good examples of true Moorish Science is what prophet Noble Drew Ali taught; It's not something we learned on the other side of the planet. Moorish Science is not the language we speak; It's the life we live. The Prophet said I brought you what it takes to save a nation, now take it and save yourselves. When he used the word I was referring to myself. He didn't mention any of us. He said for us that we would enforce his laws. He did not say that we were going to complete his teachings, but that we teach our people their nationality and their Divine Religion the we is directed towards himself and those Sheikhs who imitate him in speech and teaching. No one else. We don't go to Jumah to worship with the other nations at noon and then go to the M.S.T.A. and hang out with the Moors at 8.m 00 p.m and mix the teachings we receive from followers of Arab Islam. We do not mix our teachings with those teachings of the Muslims of the East. We have different issues than that. They were not put into slavery and stripped of their nationality and divine doctrine and all that makes them who they are. When the Prophet Noble Drew Ali informed us of the fact that when the European went to Africa to find these for their work and they said take these Moors, they do nothing, who do you think was who said this? You might want to do some real study to find out who really helped put our people to work. It was the Arabs, Everyone knows this, except us and the Europeans in this country who have only read history books written here in America and have not really been trained. The reason this happened to us was explained to us by the prophet in the Holy Koran of the Moorish Scientific Temple of America in Chapter 47, and that was our fault. That is why it is so important for us to demonstrate the Ancient Divine Symbol and the Principles of our ancestors. what the Prophet Noble Drew Ali returned to us. We have to let everyone else do their thing and do our own thing. without losing love. We must learn to love instead of hate. and let this love begin with itself and spread abroad. We really need to show who we are and really accept others for who they are. That's called tolerance. If what what it's in violation of our beliefs and principles, then that's their job, not ours. Certain things are not acceptable in our circle. But he's not in our circle. But he's and be ours. Let's all do things that keep a smile on their face, as long as they don't interfere with the rights of others, everything is fine. On Judgment Day Allah will judge us all. We follow the teachings of the Holy Koran of Mecca, we do not follow Arabic tradition or interpretation. we can interpret things for ourselves. Besides, the Holy Koran of Mecca was revealed in detail, there is no interpretation required for those who Allah allows to understand it. The Holy Koran of Mecca contains the True Ancient Divine Laws and Symbol of Faith, and is no different from any other True Holy Scripture, it merely confirms everything, including the Holy Koran of the Moorish Scientific Temple of America, We have our support and they have theirs: Our support is the Holy Koran of the Moorish Scientific Temple of America. We need neither hadith nor a Sunnah nor do we need Arabic terms to support or explain the Teachings of our Prophet. The Prophet in speech and teaching. In the Holy Koran of Mecca, Allah instructs everyone to follow what their Prophet brought them. He will inform us on Judgment Day of the things we disagree on. We cannot knowingly violate the Prophet's instructions. That would be a violation of the Divine Laws of the Holy Koran of Mecca. If we continue this way, we might as well have the Imam come and teach us their stuff. We are not members of nor are we recruiting for any class other than the Order of Moorish Science Temple of America carry it; We do it in the prophet's way. We are part and part of the Moorish Sciencific Temple of America. its laws and its encouraging actions. We don't prefer others over it or with it. The Prophet demands our absolute and immortal devotion. This is the law must live. We can appreciate how others do it, but we have our own way. As the Prophet Muhammad was the last prophet in those days, the Prophet Noble Drew Ali is the last prophet these days. The Prophet Muhammad came to fulfill the works of the Prophet Jesus and the Prophet Noble Drew Ali came to bring us back in harmony with what we lost, to teach us how to praise once again Allah basically to return Muhammad's works among Asians here in America. This is what the Moorish Scientific Temple of America means that draws its power and authority from the Great Koran of Muhammad to spread the faith and extend the learning and truth of Ali's Great Prophet to America. America. America means that draws its power and authority from the Great Koran of Muhammad's faith in America This puts us under Islamic canon law and makes us a part of the largest Islamic community. Moorish Science is not a soup or stew that needs different ingredients to make it what it is. Moorish Science has an ingredient. Drew Ali's Teaching Prophet Noble: His Divine Instructions and Laws? That's it. that's it. They can't be legal members of .C M.S.T.A. and they don't know that. Legal members of the .C. of the M.S.T.A. follow only the Prophet to a destination that is neither uncertain nor unknown. The words The Prophet refers to the Prophet Noble Drew Ali. Our allegiance is to the Prophet Noble Drew Ali, no one else. We honor and passionately love all prophets. we make no distinction between them. But what we are aligned with and whose teachings we follow. his name is Noble Drew Ali. His teachings meet the needs of our nation. It is a sad situation when someone says to a Sheikh: Stay with the Prophet and that the Sheikh says they hate him because he does not do it in the way of the Prophet. In fact, when someone shows immortal love and devotion to the Prophet and a Sheikh interprets that love for the Prophet as hateful to him makes that Sheik an offender. They call themselves experts of the Moorish Scientific Temple of America, but they do not recognize the Prophet said: My sheep know the sound of my voice, a stranger will not follow. This means that some Moors are in fact strangers to the Prophet and are strangers to Moorish Science because they refuse to follow the Prophet's written law. His written law is his voice. The Moors are trying to say that the Prophet wanted us to be international, etc. Allah tells us in the Holy Koran of Mecca that he could make us a community if he wanted to. But he didn't. He divided us into nations, and each nation has its own religious ceremonies. But of course you Moors would rather show Arab Science more than you love Arab Science. That's why they are fighting so hard to introduce Arabic terms into the Moorish Temple of America. You say the Prophet used the term Sultan, which is an Arabic term. If what you're saying is true, then you'll definitely learn Hebrew because Elohim is a Jewish term. You should also learn Italian because the prophet used Roman numerals in his Holy Koran Scientific Temple of America. and since he talks about Kapivistu temple we should learn Hindus. Come on, Moors, let's be real, and let's be ourselves. You Moors want to add more elements to the Prophet is not right, the Temple is not right. You want to recommend books, articles and documents that are good to read. Why don't you propose the Divine Constitution and laws? You've proven you don't know that, proving that you do not know the sound of the Prophet's voice. You propose the General Laws, the Supreme Laws. Recommend additional laws. What's the difference between being a part and a part and being an integral part? What does DCBL Law 1 mean? You Moors don't know. That's why you're trying to introduce demonstrations that the Prophet has already made law. Act 1 of the Divine Constitution and By-Laws means that there may not be in any Temple different laws or teachings other than those written or sanctioned by the Prophet Noble Drew Ali. This means that all the Temple of the Moorish Scientific Temple of the Constitution that are authorized by him. That's what it means.... with the help of the Prophet and the Grand Body of the Moorish Scientific Temple of America. No one can go to a temple on the east coast and find different teachings than those in a temple on the law. For the Adepts in Moorish Science, these topics are not-brainers. Why? Because we're Experienced? we love Allah, we love the Prophet Noble Drew Ali, and we love the Moorish Scientific Temple of America. Learn to appreciate like you do, then you are near the pinnacle of wisdom. Some of you Moors don't have skilful lessons coming from the Moorish Science Temple of America. That is why one can humbly disagree with a presentation of the Prophet's laws, because no one has ever been taught in the Adept Hall of the Moorish Scientific Temple of America. The experienced of the Moorish Scientific Temple of America. The experienced of the Moorish Scientific Temple of America. Temple of America, and that is: The Way of the Prophet. It's the Prophet's way or not in any way. He said Imitate the Prophet in speech and teachings from him, we do not bring teachings to him. Again, the only thing each of us has to bring to the table is obedience to its laws. Whatever talents we have will be used and/or developed from there. We would like to learn different language; Well, that's good. But learning Arabic, or any other language; well, that's good. But learning Arabic, or any other language, is not a requirement to be a member of the M.S.T.A.; nor is it a prerequisite for a good Moorish American Muslim; but obeying the laws of the Prophet is. As evidenced on our first visit to the M.S.T.A.: If you have listened to our laws and you think you can obey these laws and would like to connect with us, then step up to the Secretary's table and receive a nationality card and become part of the elevation of fallen humanity. But if you don't think you can obey these laws, then it's best to keep your seat. Since none of us have kept our positions, then it is mandatory to obey the laws, rules and regulations of the Prophet and we must obey them to the letter. The Noble Drew Ali is the Prophet of Allah. He is the one who determines what we need to know or what we should not learn as a condition for joining the Movement. He is the one who declared that we are Muslims according to the Divine Laws of the Holy Koran of Mecca. No one should be able to refute or refute this in your eves unless you have more credibility in your heart than the Prophet of Allah himself. What makes us Muslims is our genetic code. What makes us good Muslims are our thoughts, our words and our actions. We are Muslims by nature. Chapter 45 of the Holy Koran of the Moorish Scientific Temple of America is called The Divine Origin of Asian Nations. In it the Prophet lists a group of nations that are Muslims by nature. Moorish Americans are on this list. The Prophet informed us that the Holy Koran of the Moorish Scientific Temple of Americans are on this list. The Prophet told you you are by natural law? The Prophet has instructed us that all true Moors must obey the laws set by their Prophet. Have you lost faith and confidence in the Sacred Instructions of your Prophet? We must trust our Prophet and believe in his instructions to us. Can someone change your nature and/or your hearts and your faith in the words of your Prophet just because they don't speak their language? Faith is what one knows is the truth. Is your faith based on the language you speak? Arabic is not the Islamic Doctrine of Mecca. We are not Arabs; we have different national laws and customs than they do. We speak a different language than they do. Are we less Islamic because of these differences? What about our Prophet's instructions to us? We've lost faith in them. instructions and we have decided that what someone else thinks about us is real? Does our ability to communicate with them verbally determine our Islamic essence? Again, what about the Prophet? What about his instructions to us? What they think trumps his instructions and invalidates his laws? What makes us good good is our obedience to his laws and instructions. Allah has already completed our religion for us. What the Prophet Noble Drew Ali brought us teaches us how to be who we are. No one can change the nature of each one's descent, unless their powers exceed those of the great god of the universe, Allah, himself. We are what our ancestors were, regardless of the language we speak. Our thoughts, words and actions determine whether we act according to the religion and principles of our ancestors, not the language we speak. Following the Divine Instructions of our Prophet makes us who we are: Moorish American Muslims. We don't have to match what anyone else thinks of us while we obey our Prophet. There is no law in the Holy Koran of Mecca that requires us to speak Arabic. However, he has read in chapter 14, verse 4 of the Holy Koran of Mecca: We sent no messenger except (to teach) in the language of his (own) people in order to make it clear to them. We are descendants of Moroccans and we were born in America. The last time I checked the language we speak here in America is English. Again, it's good to learn other languages, but that's not a requirement to be a good Moorish America. In order to join the Moorish Temple of America, you have to buy a nationality card, an M.A. ALLAH crescent button and someone has to pay the end of a month. The Nationality Card has our sacred symbols on it and two blank lines for the name and age of the member at the time of his accession to the Temple. Reads This is your nationality and identity for the Moorish Science Temple of America and birth rights for Moorish Americans, etc. We honor all the divine prophets Jesus, Mohammad, Bada and Confucius. May the blessings of the God of our Father Allah be upon you bearing this card. I declare that you are a Muslim under the Divine Laws of the United States Noble Drew Ali, the Prophet. The Holy Koran of Mecca is the Final Revelation of Allah and explains everything we need to know in detail. The sequence of our laws connects us with the Greater Islamic Community and keeps us in tune with Deific Will. Our Questionnaire connects us to the Largest Islamic Community. Most of the Oral Statements of the Prophet Noble Drew Ali were mentioned by those who were present when he told them. We honor these Moors for their reporting. Skillfully speaking, however, our laws and our Questionnaire contain the True Official Statements of the Prophet. It's not a heresy or a report on what He wrote it himself. We, as Moors, cannot get involved in what someone else does or says. Remember: Custom does not change the nature of truth. As to what Please be aware that the general opinion is not proof of the truth, because the generality of people is ignorant. To be good Black American Muslims all we have to do is what we said we would do when we took out our nationality cards, and that's obey the laws. If we focus on what Prophet Noble Drew Ali brought to us and study it and know it and live it we will find that we are pleasant in the sight of Allah. That is not our goal, to be pleasant in the eyes of Allah. is it not the ultimate achievement? Allah did not send us an imam to show us their manners. He sent us the Prophet Noble Drew Ali to bring us back ours. Again, it is not the language of our language that makes us who we are, but the language of our hearts. Let us purify our hearts with love and sacred zeal and be who we are instead of trying to act on what someone else thinks we should be. Aren't the words of our Prophet? Have you ever trusted our Prophet? If you trust our Prophet, then you have faith in his words and his lessons that they make you what he declares you to be. No one can determine whether we are Muslims except Allah himself. He sent us a Prophet to inform us of our Faith and came equipped with lessons so that we could be who and what we are. We are not Arab Muslims; We're Moorish American Muslims. We're related to the Arabs in that we have the same father and mother. But we have our own laws and customs. Our teachings are different from theirs. The roles of women in our temples are not like in mosques and the Mamzins. How many female Imams do you know or have heard that they exist in the Arab ranks of Islam? The Prophet mentions sheikhs and sheikhses, Grand Sheikhs and Grand Sheikeses in his laws. How many imams do you know? They also have more than one wife, we don't. They eat meat, our sheiks don't. welcome A-Salaam Alaikum, welcome Islam; have their place of prayer, we have our own, etc. We're not trying to be like them and we don't need validation from them. If we try to be like them or live up to their expectations, then we lose ourself. That way you don't have to worry about running into this man you think Once you met him, you lost your identity. You thought you were him, but he showed up, and because it's him now, you don't have an ID. As long as we obey the Prophet Noble Drew Ali, we will always be true Moors. In my work, I meet people from all over many of whom are Muslims. When we talk about Islam and the way we live our lives, I don't use a single word of Arabic. When we go our separate ways they are happy and proud to call me their brother in Islam. In the office I meet different types of ethnicities of Muslims. Every one of those who spoke to me about Islam has decided that I am a true Muslim and I have never uttered a word of Arabic. They decided my heart was Islamic. I don't speak Arabic, I'm just following the teachings of the Prophet Noble Drew Ali and that speaks for itself. I'm not telling you what I heard. I'm the message I'm bringing. I'm a fan of the Prophet Noble Drew Ali only. The Noble Drew Ali is our Prophet. He brought us everything we needed to save ourselves. All we have to do is exercise faith, hope and love and climb the dome of purity in life. The Prophet Noble Drew Ali brought us everything we need to do this. Anyone who has ever been associated with or has ever seen Moors in action and think we are not real Muslims, it is because the Moors who had been associated with or seen in action did not live according to the laws and instructions of the Prophet. When true Moors follow in their master's footsteps, the world can see that it is what they claim to be. The Prophet Noble Drew Ali was a True Muslim and did not have to speak to anyone in Arabic. Because we can't just imitate the Prophet and be true Muslims without having to speak Arabic to anyone. Let our lives be defined by what the Prophet Noble Drew Ali gave us instead of what someone else word good enough for us. or do we need validation from those who were not prepared by Allah to redeem man from his sinful ways and warn him of the great wrath that is certain to come upon the earth? What makes us successful is not being able to communicate with Eastern Muslims in Arabic, but being able to communicate with unconscious Moors here in America in English. What you Moors really need to do is take an English lesson. Then perhaps you will learn how to obey his laws and instructions and then perhaps you will really and/or fully understand the teachings of the Prophet: Because right now you're not. That's why you think we need supplements for his teachings. We have those who to claim Moorish science, but they don't want to live Moorish science. We must practice the teachings brought to us by the Prophet. Again, we must show faith. hope and love. One cannot be a good Moorish American Muslim unless he lives in Moorish science. The 12 Maximums of Truth are among the lessons that the Prophet Noble Drew Ali brought to us in order to be who we are. It is the twelve steps of the ladder on which we climb to reach the pinnacle of what life is spent to build: The Temple of the Perfect Man. The exercise of 12 Maxims of Truth makes us good Moorish Scientists and makes us good Muslims. Moorish Science begins with obedience to Allah, obedience to Allah, obedience to Allah, obedience to his prophet. In 12 Maximums of Truth the first thing we have a mandate to teach our children is obedience. Obedience is the first saying of the truth. No one can be a true Moorish Scientist without first exercising this quality. If one cannot obey the laws, then it is better to keep his position, because that means he will not be a good Muslim. Anyone who cannot obey cannot be a good Muslim, no matter how much information they have accumulated. What we teach our children must be gualities that we have. If not, we just transmit information. Kids can't be what they can't see. Moorish Science is something we live in, it's not something we talk about Obedience to the laws of the Prophet is of the utmost importance to be a Moorish scientist. If we don't live it, then we don't leach it. we're just showing the way, and a block of wood can do the same. For example, in our last telephone meeting when I mentioned that I was writing this letter, one of you made a point of making sure that I do not falsely blame anyone; and on the same subject, when the subject of profanity came up he admitted that he uses the language of birds and that this is a topic on which he is going to have to deal with Allah. This is typical of most Moorish leaders. We want to apply the laws to someone else, but we refuse to apply the laws to ourselves. Restricting ourselves from the use of profanity is the law; it's not an option, it's not an option, it's a requirement. That was the problem we had at the Temple in California. The Sheikhs wanted to enforce the laws on the members and not impose them on themselves. That's the problem throughout the Moorish Science Temple of America. That is why they have the impression that we are not really Muslims, because we do not really obey the laws of the Prophet or other laws in this regard. We have the ones with criminal mentalities that carry nationality cards. Yes, we have many Moors who learn about the Prophet, about being Muslims and trying to be good Moors. Then we also have a lot of Moors who learn about the Prophet while incarcerated and never lose that Mentality. Then we have Moors who, whether imprisoned or not, are just straight criminals and evil spirits. We came from the original Temple of the Prophet. And we can't ring anyone. Recently we've had Moors robbing banks and killing themselves and doing all sorts of things that aren't Moorish or Islamic. Therefore, we can not point the finger; Nor can we clean these incidents under the carpet. They happened under our supervision. That means we don't teach Moorish Science properly. Obviously we did not inspire those with love and sacred zeal for the reality of the Prophet's teachings. Everything that belongs to our neighbor must be sacred from our touch. Also, our lives are for others worth more than our death; It's our duty to preserve it. We must ensure that all our members know it. We must inspire justice and absolute faith in Allah. Allah provides us all. We need to know that he's going to test us and that we need to pass His exams. Each of us who are members of the M.S.T.A. must bring ourselves in Allah and the Prophet Noble Drew Ali. We must coordinate with our own Moorish spirituality and obey our instructions, because they keep us in harmony with our higher selves. For example, our dietary guidelines are essential for all Sheikhs. We must be examples of how not to follow laws, not examples of how not to follow laws. How can we expect them to follow the laws and customs if we refuse to do so on our own? I give honors to one of you Moors to be in tune with the proper Moorish diet for sheikhs. The rest of the Sheiks need to stop acting like spoiled teenagers and follow the instructions. Stop eating meat! You call yourselves Sheiks and Experienced, but you still can't follow simple instructions. Please be informed that we hereby inform you that disobedience to the Prophet will not be tolerated in the A.C of the M.S.T. of A. Mistakes are one thing, we all do. In fact, Allah guides us in His Final Revelation Chapter 16, verse 61 that if he were to punish us for our injustices, he would not leave on earth a single living creature. so that everyone falls short. However, total contempt is out of moorish character. The Prophet has laws and we will enforce them. It is our duty and direct orders from the Prophet to mediate that This is the Law. When violations of the law are brought to our attention, we must If you see me in violation of any prophet's law, let me know. I quote the law I broke, I'll comply immediately. You Moors must recognize the Prophet Noble Drew Ali for what he is. Don't think you can override his laws. The Moorish Scientific Temple of America exists there of Allah and his Prophet, not because of any of us. The Noble Drew Ali is the Prophet of Allah and must have his way. You do the same thing the Romans did when they merged the teachings of Jesus with the Greek-Roman tradition. Trying to mix pure teachings with someone else's tradition. The Moorish Scientific Temple of America is where the Prophet left his spirit. He didn't stay in any other entity. We're what you see, and we're what you don't see. If you don't see it, it means you haven't searched hard enough. We have members, we have the Big House. Each is a part of the Moorish Scientific Temple of America, and each has its function in the Moorish Temple of America. Again, the Moorish Scientific Temple of America is where the Prophet left his spirit. There are teachings in .C M.S.T. of A. for the Moor who seeks high science. How many meetings has any of you attended? I mean meetings have a tended? I mean meetings have a tended? I mean meetings where the spirit of the Prophet is present in his teachings and Allah, the one and only God, invokes and all receive our lessons and blessings from Allah, ALL KNOWLEDGE AND SOFIA. None of you Moors mentioned in this announcement have proven that you are Adepts in Moorish Science. Moorish Science is something you can learn by studying Prophet Noble Drew Ali, not by studying Sunnah teachings. And I like many of the items that some of you Moors have presented; But I know it's not Moorish Science. How many of you have gone to a meeting where the Laws and customs of the Prophet are eaten and his spirit assimilated? You Moors think you have something to teach in A.C of the M.S.T. of A. How can you be a teacher in A.C of teacher in A.C of teacher in A.C of teac Moorish Scientific Temple of America and the Skilful Chamber there. In our Hall of Abilities we study the Prophet. That's why he's called .C of the M.S.T. of A. Because we only study the Prophet Noble Drew Ali. just as we don't bring any other teachings to our public meetings, we don't bring any other teachings to our funny meetings either. Adept Encounters is an institution of Moorish Science, established by the Prophet himself; should be carried out one every week. We have laws that apply only to Adepts. All Adept are not business meetings. Most Adept Meetings are spiritual meetings where we come together and study everything the Prophet has given us in depth. It's where we learn how to think like Adepts and how to be Adepts. It's where we learn how not only to put them in our hearts. Not just to memorize them, but to live with them. Seasoned Adepts have been in hundreds or thousands of them. It's not just members who hold the title Sheikh. They are members who see wisdom obeying the word of the Prophet. If someone does not attend Adept Meetings, then they cannot learn how to be experienced. In these meetings every honest person is soaked in the spirit of the Moorish American. The Experienced Moorish American is the one who eats the Laws of the Prophet and by example inspires others to be good Muslims. The purpose of the Moorish Scientific Temple of America is to uplift the fallen humanity. The focus is to return to this state of mind of our ancestors Divine Symbol of Faith and Principles. This, like everything else in the Moorish Scientific Temple of America the first thing we read is: Know Thyself and Allah. Get to know yourself first. How are you going to get to know your God if you don't know yourself? Our goal is to redeem man from the sinful and fallen stage of humanity back to the highest level of life with his Father, God Allah. That starts with himself. The Prophet Noble Drew Ali has brought us everything we need to do this. We receive and have access to everything we need at the beginning and understand these lessons and blessings gradually. You cheeky beginners and others believe that you can discuss me about Moorish Science when you have never received instructions at a Spiritual Adept Meeting nor have you really studied the Holy Koran of Mecca that is about teaching and guiding all Moorish Americans, etc.? you've only been to business meetings. Proof of this is that you don't even know the Divine Constitution and the Rules or the worst of all you don't know the Moorish American Prayer. The Holy Koran of Mecca confirms everything you read in the Holy Koran of the Moorish Science unadultishable, and undisturbed by other teachings. If this communication upset you, then good! You're currently under control. The error of your ways should be pointed out to you in relation to Moorish science. When you come to the Convention, leave your feelings and your childhood feelings at home. Don't get me wrong, what you bring is probably good information, but it's not Moorish Science. Let us focus on the words and actions of the Prophet Drew Ali. He's our teacher and he left his tracks clearly paved so that those of us who follow him could see it clearly, he, the Master took us that way. These are his Sacred Instructions to us. Or we'll follow his instructions of the Prophet are snakes, scorpions, rats, weasels and lizards. all of the above. If we are members of the Moorish Scientific Temple of America and we refuse to follow the prophet's written law, then why are we here? Are we trying to confuse the minds of those who believe? If that's the case, then we're enemies of the Movement. The Moorish Scientific Temple of America is a Sacred Institution. Let's all deal with this accordingly. Let each member tie their shoes or face the fire. Irene, Brother Moreland El, Sheikh, Di .M.M.
